-

BID FORM (page 1 of 2)

TO: Tina Jordan, FAO
Department of Developmental Services-North Region
155 Founders Plaza, 255 Pitkin Street
East Hartford, CT 06108

FOR: Project #: **DDS-1007**
Project Title: **Roofing Project**
Location: **2 Homes**

FROM: (Company Name) _____

In compliance with the Instruction to Bidders & Conditions of Bid (section I.B. 1.09), and subject to all conditions thereof, the undersigned offers and agrees to furnish all labor and materials and to complete work called for by the project's technical specifications within the allotted time of **(90) calendar days** for the Lump Sum of:

BASE BID: 2 Homes (breakout per house below)

WORDS: _____

DOLLARS Figures: (\$_____).

Supplemental Bid: cost to remove deteriorated sheathing & replace with 4' X 8' CDX plywood Sheathing – price per sheet

WORDS: _____

DOLLARS Figures: (\$_____).

<u>Home</u>	<u>Amount</u>
265 Kennedy Road, Windsor	\$_____
318 Mountain Road, Newington	\$_____

NOTE: A bid surety of not less than 10% of base bid amount is required to accompany bid in the form of a bond or certified check made out to the "Comptroller of the State of Connecticut" if base bid exceeds \$10,000. Failure to provide this bid surety will result in **disqualification** of this bid.

BID FORM (page 2 of 2)

The General Contractor on this project will be required to perform not less than (**50%**) of the completed dollar value of the work with its own forces.

I (we), the undersigned, hereby declare that I am (we are) the only person(s) interested in this bid: That it is made without any connection with any other person making any bid for the same work: that no person acting for, or employed by, the State of Connecticut is directly or indirectly interested in this bid, or in any contract which may be made under it, or in expected profits to arise there from; that this bid is made without directly or indirectly influencing or attempting to influence any other person or corporation to bid or to refrain from bidding or to influence the amount of the bid of any other person or corporation: that this bid is made in good faith without collusion or connection with any other person bidding for the same work; and that this bid is made with distinct reference and relation to the plans and specifications prepared for this contract.

I (we) further declare that in regard to the conditions affecting the work to be done and the labor and materials needed, this bid is based solely on my (our) own investigation and research and not in reliance upon any representations of any employee, officer or agent of the State.

I have carefully read, understand and will comply with all of the above Project Terms and Conditions, Security Regulations and Scope of Work. I have received and incorporated all Addendums (if any) posted on the DAS Web Portal and have incorporated these within the bid.

COMMISSION ON HUMAN RIGHTS AND OPPORTUNITIES
CONTRACT COMPLIANCE REGULATIONS
NOTIFICATION TO BIDDERS

(Revised 09/17/07)

The contract to be awarded is subject to contract compliance requirements mandated by Sections 4a-60 and 4a-60a of the Connecticut General Statutes; and, when the awarding agency is the State, Sections 46a-71(d) and 46a-81i(d) of the Connecticut General Statutes. There are Contract Compliance Regulations codified at Section 46a-68j-21 through 43 of the Regulations of Connecticut State Agencies, which establish a procedure for awarding all contracts covered by Sections 4a-60 and 46a-71(d) of the Connecticut General Statutes.

According to Section 46a-68j-30(9) of the Contract Compliance Regulations, every agency awarding a contract subject to the contract compliance requirements has an obligation to “aggressively solicit the participation of legitimate minority business enterprises as bidders, contractors, subcontractors and suppliers of materials.” “Minority business enterprise” is defined in Section 4a-60 of the Connecticut General Statutes as a business wherein fifty-one percent or more of the capital stock, or assets belong to a person or persons: “(1) Who are active in daily affairs of the enterprise; (2) who have the power to direct the management and policies of the enterprise; and (3) who are members of a minority, as such term is defined in subsection (a) of Section 32-9n.” “Minority” groups are defined in Section 32-9n of the Connecticut General Statutes as “(1) Black Americans . . . (2) Hispanic Americans . . . (3) persons who have origins in the Iberian Peninsula . . . (4) Women . . . (5) Asian Pacific Americans and Pacific Islanders; (6) American Indians . . .” An individual with a disability is also a minority business enterprise as provided by Section 4a-60g of the Connecticut General Statutes. The above definitions apply to the contract compliance requirements by virtue of Section 46a-68j-21(11) of the Contract Compliance Regulations.

The awarding agency will consider the following factors when reviewing the bidder’s qualifications under the contract compliance requirements:

- (a) the bidder’s success in implementing an affirmative action plan;
- (b) the bidder’s success in developing an apprenticeship program complying with Sections 46a-68-1 to 46a-68-17 of the Administrative Regulations of Connecticut State Agencies, inclusive;
- (c) the bidder’s promise to develop and implement a successful affirmative action plan;
- (d) the bidder’s submission of employment statistics contained in the “Employment Information Form”, indicating that the composition of its workforce is at or near parity when compared to the racial and sexual composition of the workforce in the relevant labor market area; and
- (e) the bidder’s promise to set aside a portion of the contract for legitimate minority business enterprises. See Section 46a-68j-30(10)(E) of the Contract Compliance Regulations.

INSTRUCTIONS AND OTHER INFORMATION

The following BIDDER CONTRACT COMPLIANCE MONITORING REPORT must be completed in full, signed, and submitted with the bid for this contract. The contract awarding agency and the Commission on Human Rights and Opportunities will use the information contained thereon to determine the bidders compliance to Sections 4a-60 and 4a-60a CONN. GEN. STAT., and Sections 46a-68j-23 of the Regulations of Connecticut State Agencies regarding equal employment opportunity, and the bidders good faith efforts to include minority business enterprises as subcontractors and suppliers for the work of the contract.

1) Definition of Small Contractor

Section 4a-60g CONN. GEN. STAT. defines a small contractor as a company that has been doing business under the same management and control and has maintained its principal place of business in Connecticut for a one year period immediately prior to its application for certification under this section, had gross revenues not exceeding ten million dollars in the most recently completed fiscal year, and at least fifty-one percent of the ownership of which is held by a person or persons who are active in the daily affairs of the company, and have the power to direct the management and policies of the company, except that a nonprofit corporation shall be construed to be a small contractor if such nonprofit corporation meets the requirements of subparagraphs (A) and (B) of subdivision 4a-60g CONN. GEN. STAT.

2) Description of Job Categories (as used in Part IV Bidder Employment Information)

<p>MANAGEMENT: Managers plan, organize, direct, and control the major functions of an organization through subordinates who are at the managerial or supervisory level. They make policy decisions and set objectives for the company or departments. They are not usually directly involved in production or providing services. Examples include top executives, public relations managers, managers of operations specialties (such as financial, human resources, or purchasing managers), and construction and engineering managers.</p> <p>BUSINESS AND FINANCIAL OPERATIONS: These occupations include managers and professionals who work with the financial aspects of the business. These occupations include accountants and auditors, purchasing agents, management analysts, labor relations specialists, and budget, credit, and financial analysts.</p> <p>COMPUTER SPECIALISTS: Professionals responsible for the computer operations within a company are grouped in this category. Examples of job titles in this category include computer programmers, software engineers, database administrators, computer scientists, systems analysts, and computer support specialists</p> <p>ARCHITECTURE AND ENGINEERING: Occupations related to architecture, surveying, engineering, and drafting are included in this category. Some of the job titles in this category include electrical and electronic engineers, surveyors, architects, drafters, mechanical engineers, materials engineers, mapping technicians, and civil engineers.</p> <p>OFFICE AND ADMINISTRATIVE SUPPORT: All clerical-type work is included in this category. These jobs involve the preparing, transcribing, and preserving of written communications and records; collecting accounts; gathering and distributing information; operating office machines and electronic data processing equipment; and distributing mail. Job titles listed in this category include telephone operators, payroll clerks, bill and account collectors, customer service representatives, files clerks, dispatchers, shipping clerks, secretaries and administrative assistants, computer operators, mail clerks, and stock clerks.</p>	<p>BUILDING AND GROUNDS CLEANING AND MAINTENANCE: This category includes occupations involving landscaping, housekeeping, and janitorial services. Job titles found in this category include supervisors of landscaping or housekeeping, janitors, maids, grounds maintenance workers, and pest control workers.</p> <p>CONSTRUCTION AND EXTRACTION: This category includes construction trades and related occupations. Job titles found in this category include boilermakers, masons (all types), carpenters, construction laborers, electricians, plumbers (and related trades), roofers, sheet metal workers, elevator installers, hazardous materials removal workers, paperhangers, and painters. Paving, surfacing, and tamping equipment operators; drywall and ceiling tile installers; and carpet, floor and tile installers and finishers are also included in this category. First line supervisors, foremen, and helpers in these trades are also grouped in this category..</p> <p>INSTALLATION, MAINTENANCE AND REPAIR: Occupations involving the installation, maintenance, and repair of equipment are included in this group. Examples of job titles found here are heating, ac, and refrigeration mechanics and installers; telecommunication line installers and repairers; heavy vehicle and mobile equipment service technicians and mechanics; small engine mechanics; security and fire alarm systems installers; electric/electronic repair, industrial, utility and transportation equipment; millwrights; riggers; and manufactured building and mobile home installers. First line supervisors, foremen, and helpers for these jobs are also included in the category.</p> <p>MATERIAL MOVING WORKERS: The job titles included in this group are Crane and tower operators; dredge, excavating, and lading machine operators; hoist and winch operators; industrial truck and tractor operators; cleaners of vehicles and equipment; laborers and freight, stock, and material movers, hand; machine feeders and offbearers; packers and packagers, hand; pumping station operators; refuse and recyclable material collectors; and miscellaneous material moving workers.</p>
---	---

3) Definition of Racial and Ethnic Terms (as used in Part IV Bidder Employment Information)

<p><u>White</u> (not of Hispanic Origin)- All persons having origins in any of the original peoples of Europe, North Africa, or the Middle East.</p> <p><u>Black</u>(not of Hispanic Origin)- All persons having origins in any of the Black racial groups of Africa.</p> <p><u>Hispanic</u>- All persons of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin, regardless of race.</p>	<p><u>Asian or Pacific Islander</u>- All persons having origins in any of the original peoples of the Far East, Southeast Asia, the Indian subcontinent, or the Pacific Islands. This area includes China, India, Japan, Korea, the Philippine Islands, and Samoa.</p> <p><u>American Indian or Alaskan Native</u>- All persons having origins in any of the original peoples of North America, and who maintain cultural identification through tribal affiliation or community recognition.</p>

**STATE OF CONNECTICUT
GIFT AND CAMPAIGN CONTRIBUTION CERTIFICATION**

Certification to accompany a State contract with a value of \$50,000 or more in a calendar or fiscal year, pursuant to C.G.S. §§ 4-250 and 4-252(c); Governor M. Jodi Rell’s Executive Orders No. 1, Para. 8, and No. 7C, Para. 10; and C.G.S. §9-612(g)(2), as amended by Public Act 07-1

INSTRUCTIONS:

Complete all sections of the form. Attach additional pages, if necessary, to provide full disclosure about any lawful campaign contributions made to campaigns of candidates for statewide public office or the General Assembly, as described herein. Sign and date the form, under oath, in the presence of a Commissioner of the Superior Court or Notary Public. Submit the completed form to the awarding State agency at the time of initial contract execution (and on each anniversary date of a multi-year contract, if applicable).

CHECK ONE: Initial Certification Annual Update (Multi-year contracts only.)

GIFT CERTIFICATION:

As used in this certification, the following terms have the meaning set forth below:

1. “Contract” means that contract between the State of Connecticut (and/or one or more of its agencies or instrumentalities) and the Contractor, attached hereto, or as otherwise described by the awarding State agency below;
2. If this is an Initial Certification, “Execution Date” means the date the Contract is fully executed by, and becomes effective between, the parties; if this is an Annual Update, “Execution Date” means the date this certification is signed by the Contractor;
3. “Contractor” means the person, firm or corporation named as the contractor below;
4. “Applicable Public Official or State Employee” means any public official or state employee described in C.G.S. §4-252(c)(1)(i) or (ii);
5. “Gift” has the same meaning given that term in C.G.S. § 4-250(1);
6. “Planning Start Date” is the date the State agency began planning the project, services, procurement, lease or licensing arrangement covered by this Contract, as indicated by the awarding State agency below; and
7. “Principals or Key Personnel” means and refers to those principals and key personnel of the Contractor, and its or their agents, as described in C.G.S. §§ 4-250(5) and 4-252(c)(1)(B) and (C).

I, the undersigned, am the official authorized to execute the Contract on behalf of the Contractor. I hereby certify that, between the Planning Start Date and Execution Date, neither the Contractor nor any Principals or Key Personnel has made, will make (or has promised, or offered, to, or otherwise indicated that he, she or it will, make) any **Gifts** to any Applicable Public Official or State Employee.

I further certify that no Principals or Key Personnel know of any action by the Contractor to circumvent (or which would result in the circumvention of) the above certification regarding **Gifts** by providing for any other principals, key personnel, officials, or employees of the Contractor, or its or their agents, to make a **Gift** to any Applicable Public Official or State Employee. I further certify that the Contractor made the bid or proposal for the Contract without fraud or collusion with any person.

CAMPAIGN CONTRIBUTION CERTIFICATION:

I further certify that, on or after December 31, 2006, neither the Contractor nor any of its principals, as defined in C.G.S. § 9-612(g)(1), has made any **campaign contributions** to, or solicited any contributions on behalf of, any exploratory committee, candidate committee, political committee, or party committee established by, or supporting or authorized to support, any candidate for statewide public office, in violation of C.G.S. § 9-612(g)(2)(A). I further certify that **all lawful campaign contributions** that have been made on or after December 31, 2006 by the Contractor or any of its principals, as defined in C.G.S. § 9-612(g)(1), to, or solicited on behalf of, any exploratory committee, candidate committee, political committee, or party committee established by, or supporting or authorized to support any candidates for statewide public office or the General Assembly, are listed below:

“With regard to a State contract as defined in P.A. 07-1 having a value in a calendar year of \$50,000 or more or a combination or series of such agreements or contracts having a value of \$100,000 or more, the authorized signatory to this submission in response to the State's solicitation expressly acknowledges receipt of the State Elections Enforcement Commission's notice advising prospective state contractors of state campaign contribution and solicitation prohibitions, and will inform its principals of the contents of the notice.

Sec.31-53b. Construction Safety and Health Course. Proof of completion required for employees on public building projects. Enforcement. Regulations. (Required for projects equal to or greater than \$100,000)

(a) Each contract entered into on or after July 1, 2007, for the construction, remodeling, refinishing, refurbishing, rehabilitation, alteration or repair of any public building project by the state or any of its agents, or by any political subdivision of the state or any of its agents, where the total cost of all work to be performed by all contractors and subcontractors in connection with the contract is at least one hundred thousand dollars, shall contain a provision requiring that, not later than thirty days after the date such contract is awarded, each contractor furnish proof to the Labor Commissioner that all employees performing manual labor on or in such public building, pursuant to such contract, have completed a course of at least 10 hours in duration in construction safety and health approved by the Federal Occupational Safety and Health Administration or, in the case of telecommunication employees, have completed at least ten hours training in accordance with 29 CFR 1910.268.

(b.) Any employee required to complete a construction safety and health course required under subsection (a) of this section who has not completed the course shall be subject to removal from the worksite if the employee does not provide documentation of having completed such course by the fifteenth day after the date the employee is found to be in non compliance. The Labor Commissioner or said commissioner's designee shall enforce this section.

(c.) Not later than January 1, 2007, the Labor Commissioner shall adopt regulations, in accordance with the provisions of Chapter 54, to implement the provisions of subsections (a) and (b) of this section. Such regulations shall require that the ten-hour construction safety and health courses required under subsection (a) of this section be conducted in accordance with the Federal Occupational Safety and Health Administration Training Institute Standards, or in accordance with 29 CFR 1910.268. as appropriate. The Labor Commissioner shall accept as sufficient proof of compliance with the provisions of subsection (a) or (b) of this section a student course completion card issued by the Federal Occupational Safety and Health Administration Training Institute, or such other proof of compliance said commissioner deems appropriate, dated no earlier than five years before the commencement date of such public works project.

(d.) For the purpose of this section, “public building” means a structure, paid for in whole or in part with State funds, within a roof and within exterior walls or fire walls, designed for the housing, shelter, enclosure and support of people, animals, property of any kind, including; but not limited to, sewage treatment plants and water treatment plants, “public building” does not include any site work, roads or bridges, rail lines, parking lots or underground water, sewer or drainage systems including pump houses or other utility systems.

SEEC FORM 11
NOTICE TO EXECUTIVE BRANCH STATE CONTRACTORS
AND PROSPECTIVE STATE CONTRACTORS OF CAMPAIGN
CONTRIBUTION AND SOLICITATION BAN

This notice is provided under the authority of Connecticut General Statutes 9-612(g)(2), as amended by P.A. 07-1, and is for the purpose of informing state contractors and prospective state contractors of the following law (italicized words are defined below):

Campaign Contribution and Solicitation Ban

No state contractor, prospective state contractor, principal of a state contractor or principal of a prospective state contractor, with regard to a state contract or state contract solicitation with or from a state agency in the executive branch or a quasi-public agency or a holder, or principal of a holder of a valid prequalification certificate, shall make a contribution to, or solicit contributions on behalf of (i) an exploratory committee or candidate committee established by a candidate for nomination or election to the office of Governor, Lieutenant Governor, Attorney General, State Comptroller, Secretary of the State or State Treasurer, (ii) a political committee authorized to make contributions or expenditures to or for the benefit of such candidates, or (iii) a party committee;

In addition, no holder or principal of a holder of a valid prequalification certificate, shall make a contribution to, or solicit contributions on behalf of (i) an exploratory committee or candidate committee established by a candidate for nomination or election to the office of State senator or State representative, (ii) a political committee authorized to make contributions or expenditures to or for the benefit of such candidates, or (iii) a party committee.

Duty to Inform

State contractors and prospective state contractors are required to inform their principals of the above prohibitions, as applicable, and the possible penalties and other consequences of any violation thereof.

Penalties for Violations

Contributions or solicitations of contributions made in violation of the above prohibitions may result in the following civil and criminal penalties:

Civil penalties--\$2000 or twice the amount of the prohibited contribution, whichever is greater, against a principal or a contractor. Any state contractor or prospective state contractor which fails to make reasonable efforts to comply with the provisions requiring notice to its principals of these prohibitions and the possible consequences of their violations may also be subject to civil penalties of \$2000 or twice the amount of the prohibited contributions made by their principals.

Criminal penalties—Any knowing and willful violation of the prohibition is a Class D felony, which may subject the violator to imprisonment of not more than 5 years, or \$5000 in fines, or both.

Contract Consequences

Contributions made or solicited in violation of the above prohibitions may result, in the case of a state contractor, in the contract being voided.

Contributions made or solicited in violation of the above prohibitions, in the case of a prospective state contractor, shall result in the contract described in the state contract solicitation not being awarded to the prospective state contractor, unless the State Elections Enforcement Commission determines that mitigating circumstances exist concerning such violation.

The State will not award any other state contract to anyone found in violation of the above prohibitions for a period of one year after the election for which such contribution is made or solicited, unless the State Elections Enforcement Commission determines that mitigating circumstances exist concerning such violation.

Additional information and the entire text of P.A 07-1 may be found on the website of the State Elections Enforcement Commission, www.ct.gov/seec. Click on the link to "State Contractor Contribution Ban."

Definitions:

"State contractor" means a person, business entity or nonprofit organization that enters into a state contract. Such person, business entity or nonprofit organization shall be deemed to be a state contractor until December thirty-first of the year in which such contract terminates. "State contractor" does not include a municipality or any other political subdivision of the state, including any entities or associations duly created by the municipality or political subdivision exclusively amongst themselves to further any purpose authorized by statute or charter, or an employee in the executive or legislative branch of state government or a quasi-public agency, whether in the classified or unclassified service and full or part-time, and only in such person's capacity as a state or quasi-public agency employee.

"Prospective state contractor" means a person, business entity or nonprofit organization that (i) submits a response to a state contract solicitation by the state, a state agency or a quasi-public agency, or a proposal in response to a request for proposals by the state, a state agency or a quasi-public agency, until the contract has been entered into, or (ii) holds a valid prequalification certificate issued by the Commissioner of Administrative Services under section 4a-100. "Prospective state contractor" does not include a municipality or any other political subdivision of the state, including any entities or associations duly created by the municipality or political subdivision exclusively amongst themselves to further any purpose authorized by statute or charter, or an employee in the executive or legislative branch of state government or a quasi-public agency, whether in the classified or unclassified service and full or part-time, and only in such person's capacity as a state or quasi-public agency employee.

"Principal of a state contractor or prospective state contractor" means (i) any individual who is a member of the board of directors of, or has an ownership interest of five per cent or more in, a state contractor or prospective state contractor, which is a business entity, except for an individual who is a member of the board of directors of a nonprofit organization, (ii) an individual who is employed by a state contractor or prospective state contractor, which is a business entity, as president, treasurer or executive vice president, (iii) an individual who is the chief executive officer of a state contractor or prospective state contractor, which is not a business entity, or if a state contractor or prospective state contractor

has no such officer, then the officer who duly possesses comparable powers and duties, (iv) an officer or an employee of any state contractor or prospective state contractor who has *managerial or discretionary responsibilities with respect to a state contract*, (v) the spouse or a *dependent child* who is eighteen years of age or older of an individual described in this subparagraph, or (vi) a political committee established or controlled by an individual described in this subparagraph or the business entity or nonprofit organization that is the state contractor or prospective state contractor.

"State contract" means an agreement or contract with the state or any state agency or any quasi-public agency, let through a procurement process or otherwise, having a value of fifty thousand dollars or more, or a combination or series of such agreements or contracts having a value of one hundred thousand dollars or more in a calendar year, for (i) the rendition of services, (ii) the furnishing of any goods, material, supplies, equipment or any items of any kind, (iii) the construction, alteration or repair of any public building or public work, (iv) the acquisition, sale or lease of any land or building, (v) a licensing arrangement, or (vi) a grant, loan or loan guarantee. "State contract" does not include any agreement or contract with the state, any state agency or any quasi-public agency that is exclusively federally funded, an education loan or a loan to an individual for other than commercial purposes.

"State contract solicitation" means a request by a state agency or quasi-public agency, in whatever form issued, including, but not limited to, an invitation to bid, request for proposals, request for information or request for quotes, inviting bids, quotes or other types of submittals, through a competitive procurement process or another process authorized by law waiving competitive procurement.

"Managerial or discretionary responsibilities with respect to a state contract" means having direct, extensive and substantive responsibilities with respect to the negotiation of the state contract and not peripheral, clerical or ministerial responsibilities.

"Dependent child" means a child residing in an individual's household who may legally be claimed as a dependent on the federal income tax of such individual.

"Solicit" means (A) requesting that a contribution be made, (B) participating in any fund-raising activities for a candidate committee, exploratory committee, political committee or party committee, including, but not limited to, forwarding tickets to potential contributors, receiving contributions for transmission to any such committee or bundling contributions, (C) serving as chairperson, treasurer or deputy treasurer of any such committee, or (D) establishing a political committee for the sole purpose of soliciting or receiving contributions for any committee. Solicit does not include: (i) making a contribution that is otherwise permitted by Chapter 155 of the Connecticut General Statutes; (ii) informing any person of a position taken by a candidate for public office or a public official, (iii) notifying the person of any activities of, or contact information for, any candidate for public office; or (iv) serving as a member in any party committee or as an officer of such committee that is not otherwise prohibited in this section.

INSTRUCTIONS TO BIDDERS

IB 1.01 General

These instructions to bidders are for the complete project known as: **DDS-1007 – Roofing Project at 2 Homes – 265 Kennedy Road, Windsor and 318 Mountain Road, Newington**. The project will be bid in strict accordance with the specifications as prepared by the Connecticut Department of Developmental Services and procedures set fourth by the Department of Public Works. The amount of each bid shall be deemed to include the entire cost and expense of every item of labor and material necessary to complete the work bid upon, in full detail, ready for use. The risk of all such costs and expenses shall be assumed by the successful bidder.

It is the intent of the specifications to call for finished work, tested, and ready for operation and use. Any incidental accessory necessary to make the work complete in all respects and ready for operation, even if not particularly specified, shall be provided without extra compensation. Minor products or items of work, which by custom are not usually shown or specified, but are necessary for proper installation and operation of the completed work, shall be provided in the same manner as if actually shown or specified.

During construction in a Developmental Services facility, there may be delays due to various safety or security issues. This needs to be taken into consideration in your submitted bid. The Department of Developmental Services will not authorize extra compensation for these delays. The department will assign a facility representative to work with the selected contractor as liaison.

Facility Representative:

John Massicotte, PFE
Ph: (860) 263-2486

Agency Representative:

Jeffrey Cyr, Director of Engineering
Ph: (860)418-6031
Fax: (860)418-6001
Email Address: jeff.cyr@ct.gov

IB 1.02 Bid Form and Acceptance

1. All bids must be ***received*** by the date and time specified at the office of **Tina Jordan, FAO** at the following address:

DDS-North Region
155 Founders Plaza
255 Pitkin Street
East Hartford, CT 06108
Telephone: 860-263-2550

It is recommended that you call prior to the bid opening to verify that your bid has been received

2. Bid envelopes must clearly indicate the project number as well as the date and time of bid opening. Any correspondence shall include the project number and project title.

3. Enclosed with this specification is a BID FORM on which bids must be submitted.
4. The project shall be bid on the enclosed BID FORM as follows:
 - a. Base Bid - complete as described herein.
 - b. Supplemental Bid (if any) - complete as described herein.
(Supplemental Bids may be accepted or not accepted by the agency, however if accepted the low bid will be determined by the total of the base bid and the accepted supplemental bid(s).)
 - c. All BID FORMS shall be signed by a person duly authorized to sign bids on behalf of the bidder. Unsigned bids will be rejected.
 - d. Contractors failing to provide supplemental bids shall be deemed non-responsive and will be disqualified.
5. If you do not wish to submit a bid, return the BID FORM with the indication "No Bid Submitted," as well as a brief indication why.
6. The contract will be awarded to the lowest qualified bidder within the Agencies budget figure.
7. The Department of Developmental Services shall have the right to accept or reject the bids within ninety (90)calendar days of the bid opening date. All bid prices must be firm for this ninety (90) day period.

IB 1.03 Phasing Plan

Please refer to phasing plan within technical specifications.

IB 1.04 Scope of Work

Furnish all required labor, equipment, services, and materials necessary to complete all work as specified in the technical specifications section. Remove all debris created by this contract.

IB 1.05 Location and Examination of Site

1. The work will be performed at: **265 Kennedy Road, Windsor and 318 Mountain Road, Newington.**
2. All contractors bidding for this project are required to visit and examine the site before bidding, and to verify job conditions and dimensions. Time, date, and location of pre-bid meeting are as noted on bid package cover sheet. **Bids received from non-attending contractors will not be honored.** This meeting is intended to review the project requirements and answer any questions that interested contractors may have about this project. Failure to attend this meeting will result in the rejection of your bid.

IB 1.06 Contractor Qualification Requirement

The contractor shall demonstrate capability to execute this contract by submitting evidence of the following:

1. Valid Connecticut license(s), if required, to perform the required work.
2. Listing of two projects of similar scope and size that were performed within the last 18 months. Include the name, address and telephone number of a contact at each job that can be contacted and who is familiar with the project.

IB 1.07 Protection of Work and Property

1. All building equipment, furnishings, grounds landscaping, etc., shall be protected from damage of every description and any such damage thereto shall be repaired or otherwise made good at no expense to the State and to the satisfaction of the Facility Representative.
2. Supply and install any and all protective coverings and barricades necessary to protect at all times the public and building personnel from injury.
3. The contractor shall be held responsible for, and must make good at his own expense, any water damage or any other cause of damage due to improper protection.
4. Due to the nature of this institution, it is mandatory that all rules and regulations be strictly adhered to and the necessary precautions taken.
5. The contractor shall, during the progress of the construction, assume all responsibilities for loss or damage by fire to the work included in his contract until completion of the contract. No flammable material shall be stored in the structure in excess of the amounts allowed by the authorities.
6. The contractor is responsible to assure that all work is performed in accordance with all current State regulations including, but not limited to, OSHA, State Fire Codes, and the Basic Building Code of the State of Connecticut.
7. The contractor will at all times keep the premises free from the accumulation of waste materials or rubbish caused by his employees or work. All accumulated material shall be removed from the site daily at the contractors expense.

IB 1.08 Form of Guarantee--Warranty

The General Contractor will furnish the foregoing documents in the following manner:

1. Address to: **DDS – North Region, Attn: Tina Jordan, FAO
155 Founders Plaza
255 Pitkin Street
East Hartford, CT 06108**
2. Provide project name and number of project.
3. I (we) hereby guarantee, (or warranty), the work on the referenced project for a period of one (1) year from the Facility's approved completion date, against failures of workmanship and materials, unless otherwise noted on specifications. The completion date shall be the date of final payment is received by the contractor.
4. All guarantees supplied by subcontractors, suppliers or manufacturers will be countersigned by the General Contractor.

IB 1.09 Time of Completion

The contractor shall complete the project within the number of calendar days identified on page 1 of the BID FORM. Calendar days begin on the day of issuance of purchase order. Once on site, the contractor's work force shall remain mobilized until work is completed unless otherwise is specifically approved by the facility representative, in writing. Crews and material deliveries are to be scheduled to meet the completion date. If due to unforeseeable circumstances the work is not complete at the specified completion date, the contractor must obtain written permission from the facility representative and a new mutually agreed upon completion date must be established, or, liquidated damages, as described in section IB 1.17 will become effective. Working days for this project shall be Monday through Friday, exclusive of State or National Holidays. No Saturday or Sunday work shall be allowed without special written permission by the facility representative. Upon completion of the contract, the contractor shall make a request to the Facility Representative to schedule a final inspection of the work.

IB 1.10 Wage Rates

Prevailing wage rates are applicable if the submitted bid exceeds the sum of \$400,000.00 (for new construction) or \$100,000.00 (if renovation/alteration/ repair or improvement). New construction is defined as building an entire "brand new" building. The contractor is responsible for assuring that the payment of wages are as published by the Connecticut State Labor Department for the area where the job is being performed.

In accordance with the provisions of Section 31-53 of the General Statutes of Connecticut, the following applies "The wages paid on an hourly basis to any mechanic, laborer or workman employed upon the work herein contracted to be done and the amount of payment or contribution paid or payable on behalf of each such employee to any employee welfare fund, as defined in subsection (h) of this section (31-53 of the General Statutes), shall be at a rate equal to the rate customary or prevailing for the same work in the same trade or occupation in the town in which such public works project is being constructed. Any contractor who is not obligated by agreement to make payment or contribution on behalf of such employees to any such employee welfare fund shall pay to each employee as part of his wages the amount of payment or contribution for his classification on each pay day."

IB 1.11 Bonds

1. A bid surety of not less than 10% of base bid amount is required to accompany bid in the form of a bond or certified check made out to the Comptroller of the State of Connecticut if base bid exceeds \$10,000.
2. A performance, and labor and material payment, surety of not less than 100% of bid amount is required of low bidder in the form of a bond made out to the Comptroller of the State of Connecticut if bid exceeds \$50,000. It is to be submitted to the Department of Developmental Services business office representative prior to award of contract and issuance of purchase order.
3. Such checks or bid bonds will be returned to all except the three lowest bidders within three days after the opening of bids, and the remaining checks or bid bonds will be returned promptly after the awarding authority and the accepted bidder have executed contract, or, if no award has been made within 90 days after the date of the opening of bids, upon demand of the bidder, so long as he/she has not been notified of the acceptance of his/her bid.
4. NONRESIDENT (out of State) CONTRACTOR BOND - In order for final payment to be processed to a nonresident contractor, a certificate from the Commissioner of Revenue Services must be provided which evidences that Connecticut General Statutes Section 12-430 for non-resident contractors has been met. For details concerning the filing of this 5% Guarantee Bond with the Department of Revenue Services (DRS), call the DRS at (860) 541 7538.

IB 1.12 Insurance

1. The Contractor shall not start work under this contract until he has obtained the following insurance and until the insurance has been approved by the owner nor shall the contractor allow any subcontractor to start work until insurance required by the subcontractor has been obtained and approved. The contractor shall send certificate for the insurance to the business office representative.
2. The Contractor shall take out and maintain during the life of the contract, workers' compensation insurance for all employees working at the site and, in case any work is sublet, the Contractor shall require the subcontractor to provide workers' compensation insurance for all of the latter's employees. In case any class of employees engaged in hazardous work under this Contract is not protected under the workers' compensation statute, the Contractor shall provide, and shall cause each subcontractor to provide, insurance for those employees.
3. The Contractor shall take out and maintain during the life of a contract, public liability and property damage insurance to protect him/her and the owner's interest as their interests may appear. Each subcontractor shall take out and maintain insurance to protect him/her from claims for damage for injury, including accidental death and from claims for property damage which may arise from operations under this contract, whether such operations be by himself/herself or by any subcontractor or by any employee unless such employees are covered by the protection afforded by the Contractor. Types and amounts of insurance required shall be as follows:

DESCRIPTION	COVERAGE	SINGLE LIMIT	EACH ACCIDENT	AGGREGATE
Protective Liability	BI	\$1,000,000		
Protective Liability	PD (for and in the name of the State of Connecticut)	\$100,000		\$500,000

DESCRIPTION	COVERAGE	SINGLE LIMIT	EACH ACCIDENT	AGGREGATE
Contractor's Liability	BI	\$1,000,000		
Contractor's Liability	PD	\$100,000		\$500,000
Contractor's Protective Liability	BI	\$1,000,000		
Contractor's Protective Liability	PD	\$100,000		\$500,000

4. Coverage for damage or loss resulting from Type C - Collapse or Structural Injury, Type U - Underground Damage, Type X - explosion or blasting, ordinarily excluded from coverage, shall be provided in the amounts and manner specified in this article if required in the bid for the specified project. Builders Risk insurance, not ordinarily required, shall be provided in accordance with the amount and manner specified in the bid for the specified project if such insurance is required in the bid.

IB 1.13 Licenses

It is the responsibility of the contractor to secure all licenses, permits, approvals, or other documents necessary to complete this project.

IB 1.14 Security

The contractor must abide by all security regulations as described in or attached to this documentation.

IB 1.15 Start of Work

The contractor will not start work or order materials before receipt of a fully executed and approved purchase order. Within two (2) working days after receipt of the purchase order and prior to the start of construction, the contractor shall schedule a pre-construction meeting with the facility representative and at that time a start date will be established. The contractor shall begin construction within ten (10) working days. Working days shall be considered as Monday through Friday.

IB 1.16 Payment

- a. Projects under \$25,000.00 - A single invoice shall be submitted by the prime contractor following the acceptance of the completed project.
- b. Projects \$25,000.00 or greater - Three invoices shall be submitted by the prime contractor; one when all material or equipment is on site or the project is 50% completed (which ever occurs first), two when the project is substantially complete, and three when the project is totally complete and accepted.
- c. The invoice shall contain the State Purchase Order number and project number. Invoices received without reference to a valid State Purchase Order number and project number will result in delay of payment
- d. NONRESIDENT (out of State) CONTRACTOR BOND - In order for final payment to be processed to a nonresident contractor, a certificate from the Commissioner of Revenue Services must be provided which evidences that Connecticut General Statutes Section 12-430 for non-resident contractors has been met. For details concerning the filing of this 5% Guarantee Bond with the Department of Revenue Services (DRS), call the DRS at (860) 541 7538.

IB 1.17 Liquidated Damages

It is hereby declared and agreed by and between the contractor and the owner that the date of commencement, rate of progress, and time of completion of the work are essential provisions, conditions and that it would be impracticable and impossible to determine and ascertain the actual damages the owners would incur by reason of a delay in the completion of the work. It is, therefore, covenanted and agreed by and between the contractor and owner that the contractor shall and does hereby agree to pay the owner as liquidated damages (and not as a penalty) the sum of two hundred dollars (\$200.00) for each and every working day that the contractor shall be in default, hereunder for failing to complete the project within the time of completion specified above except as such date shall be extended, in writing upon request of the contractor, for the period of an excusable delay. Any such payments due to the owner by the contractor may be deducted by the owner from any sums due to the contractor.

IB 1.18 RECEIPT OF BIDS

BIDS SHALL BE PLACED IN SEALED ENVELOPES MARKED "SEALED BID OPENING, PROJECT #DDS-1007" AND DELIVERED/RECEIVED PRIOR TO THE BID OPENING DATE AND TIME LISTED ON THE COVER SHEET.

DELIVER TO: **Tina Jordan, FAO**
DDS – North Region
155 Founders Plaza, 3rd Floor
255 Pitkin Street
East Hartford, CT 06108

End of Section Revised Date: 6/2009

GENERAL CONDITIONS

GC 1.01 General

In addition to the conditions in the Instructions to Bidders, the following General Conditions shall apply and form an equal part of the contract documents.

GC 1.02 Use of the Premises

1. Nothing contained in the Specifications shall be interpreted as giving the Contractor exclusive use of the premises where the work is performed.
2. The Contractor shall be held solely responsible for any damage to the existing structures, systems, equipment and site caused by them or by their employees and shall repair or replace same to their original condition as directed by the facility representative at no additional cost to the owner.
3. The work of the contract shall not interfere with the normal conditions and safe operation of the building and site. If such interference appears possible because of construction to existing work or other reasons, the work involved must be done at a time and in a manner directed by the facility representative as a part of the contract.
4. The contractor shall supply and install any and all protective coverings and barricades necessary to protect at all times the clients, public and building personnel from injury and the building from damage. The contractor shall provide and install all plastic sheeting, and other materials, which he/she may require to protect all open, unfinished work at the end of each and every day.
5. The contractor shall secure unfinished work areas at the close of business each day to preclude passage by any and all unauthorized persons.
6. No flammable material shall be stored in the structure in excess of the amounts allowed by the fire codes and authorities. No gasoline shall be stored within the building.
7. Protection of building, building occupants and visitors.
 - a. Construct barriers to prevent dust from construction areas from entering client areas. Barriers must be impermeable to fungal spores and in compliance with local fire codes.
 - b. Seal off and block return air vents if rigid barriers are used for containment.
 - c. Implement dust control measures on surfaces and divert pedestrian traffic away from work zones
 - d. If necessary, create negative air pressure in work zones adjacent to client care areas and insure that required engineering controls are maintained. Monitor negative airflow.
 - e. Direct pedestrian traffic away from construction zones.

- f. Provide construction crews with: Designated entrances, corridors and elevators if possible,
- g. Contractor shall clean work zones and their entrances daily.
- h. Contractor shall cover and secure debris prior to removal from the construction area.
- i. In client care areas, for major repairs that include removal of walls and disruption of the space within, the contractor shall use plastic sheets or prefabricated plastic units to contain dust and a HEPA (High Efficiency Particulate Air) filter machine to clean the air.

GC 1.03 Storage or Equipment and Materials

1. All deliveries of material, equipment, etc., shall be made to the contractor and accepted only by him/her and only during working hours. Department of Developmental Services personnel will not receive or accept any materials or equipment, etc. at any time.
2. The contractor shall secure instructions from the facility representative's as to available space for storing materials, tools, etc. If adequate space is not available, he/she shall provide his/her own storage facilities and in all cases be responsible for its protection.
3. All materials used throughout work shall be neatly stacked so as not to obstruct traffic, or the progress of the work.
5. All materials delivered to the job site will be protected by the contractor from weather damage, loss, or vandalism.

GC 1.04 Codes, Rules, Ordinances and Approvals

1. All materials furnished and all work installed shall comply with the rules and recommendations of the State of Connecticut; and must comply with all applicable State and local code, laws, ordinances, rules and regulations, with all requirements of local utility companies, and with the recommendations of the Insurance Rating Organization having jurisdiction.
2. It is intended that the technical specifications not violate any of the above. Where violations occur, such codes, laws, rules, ordinances, regulations and recommendations shall be complied with. The contractor must call any such violations to the attention of the Department of Developmental Services facility representative before making any changes to the specifications or proceeding with the work.
3. The Contractor shall, at his expense, give all notices, obtain all permits, licenses, approvals, fees and other costs in connection with the work and obtain all required certificates of inspection for the work and deliver same to the Department of Developmental Services facility representative before requesting acceptance and final payment.
4. All apparatus, equipment, such as ladders, scaffolding, chutes, etc., shall comply with the recommendations of the Manual of Accident Prevention in Construction, published by the Associated General Contractors of America, OSHA, and approved revisions.
5. The contractor must at all times maintain a fire safe environment. Fire extinguishers are to be provided by the contractor, at all work sites, of the size and type required for the work being

performed. Sprinkler and alarm systems are not to be shut down or impaired without the approval of the facility representative. Welding will only be performed by certified welders. When welding is being performed there is to be a fire watch provided with extinguishing equipment at his or her immediate access.

GC 1.05 Salvage and Disposal

1. All removed materials that are deemed salvageable by the facility representative are the property of the facility (State of Connecticut). The facility's representative will direct which materials the facility will retain and which material the contractor shall retain and/or dispose of. Facility retained material is to be relocated by the contractor to an area designated by the facility's representative at the contractor's expense.
2. All debris resulting from the performance of this contract will be the property of the contractor and will be completely removed from the facility daily. All permits, manifests, fees or other requirements for the proper disposal of such debris is the sole responsibility of the contractor. If a hazardous material is involved, copies of manifest slips must be provided to the facility representative.
3. Chutes and dumpster type containers designed to keep dust and spillage to a minimum will be supplied and used by the contractor at his/her own expense.

GC 1.06 Maintenance of Utilities

1. The Department of Developmental Services has the responsibility for the operation of the entire utility distribution system. Any operation or function in relation to the work which could render said system(s) inoperable shall be coordinated, upon notification by the contractor, by the facility representative. All operational changes shall be made in this manner.
2. When installation of new work requires the temporary shutdown of an existing operating system, the connection of the new work shall be performed at such time as designated by the facility representative. The facility representative reserves the right to limit the shutdown time to a specified number of net hours and set the date and time of each occasion of complete shutdown. Notify facility representative of the estimated duration of the shutdown period at least seven (7) days in advance of the date the work is to be performed.
3. Any shutdown to the service which will interrupt critical operations shall be protected by the provision of a safe and adequate temporary means of service replacement, supplied at the contractor's expense, which shall be removed when no longer required. The contractor shall insure all tools, supplies, equipment and labor is on hand and in position to start the moment the shutdown period is made available to him.

GC 1.07 Change Orders

1. No additional compensation or time shall be granted beyond that noted on the original purchase order, unless approved in writing by the **Agency Representative**.
2. The Department of Developmental Service's Agency **Representative** is identified on the invitation to bid section. Changes, proceeds, or approvals from others will not be honored.

GC 1.08 Shop Drawings

1. Shop drawings shall be submitted as required to the facility representative and/or as noted on the plans and technical specifications.
2. The contractor shall make any corrections required by the facility representative at no additional cost to the state and submit 2 corrected copies to the facility representative.
3. It is the contractors' responsibility to flag deviations from the contract documents. An approval will not be considered an acceptance of the deviation unless it has been explicitly and clearly identified in writing.

GC 1.09 Substitutions

If substitutions are permitted, it is the responsibility of the contractor to provide the necessary documents to prove that the product is equal to that specified. These documents must be received by the facility representative for his approval/disapproval prior to the date stated on the front cover sheet.

GC 1.10 Quality Control

1. Comply with manufacturer's recommendations and association or trade instructions and specifications for storage, use, and installation of their products. All materials and equipment shall be installed in strict accordance with the manufacturer's recommendations. This shall include any and all steps, treatments, or maintenance required before placing into use or placing into service.
2. Comply with instructions in full detail, including each step in sequence. Should instructions conflict with contract documents, request clarification from facility representative before proceeding.
3. When instructed by facility representative, submit manufacturers' data sheets, including instructions and recommendations.
4. If substitutions are permitted, it is the responsibility of the contractor to provide the necessary documents to prove that the product is equal to what is specified. These documents must be received by the facility representative for his approval/disapproval prior to use.

GC 1.11 Owners Right to Stop Work or terminate Contract

1. The owner has the right to stop work and/or terminate this contract under any or all of the following conditions:
 - a. If the contractor shall be adjudged bankrupt or make an assignment for the benefit of creditors.
 - b. If a receiver or liquidator shall be appointed for the contractor or for any of his property and shall not be discharged within 20 days after such appointment or the proceedings in connection therewith shall not be stayed on appeal within the said 20 days.
 - c. The contractor shall refuse or fail, after written notice of warning from the Agency Representative, to supply sufficient properly skilled workmen or proper materials.
 - d. The contractor shall refuse or fail to prosecute the work under this contract or any part thereof with such diligence as will insure it's completion within the period herein specified (or any duly authorized extension thereof) or shall fail to complete the work within said period.
 - e. The contractor shall fail to make due and proper payment to persons supplying labor and/or materials for the work under this contract.
 - f. The contractor shall fail or refuse to regard laws, ordinances or the instructions of the Agency Representative or otherwise be in substantial violation of any provisions of this contract, then the owner, without prejudice to any other rights or remedies it may have, may, with 7 days written notice to the contractor, terminate the employment of the contractor and his right to proceed and may take possession of the work under this contract and complete the work by contract or otherwise, as the owner may deem appropriate and expedient.
2. If the right of the contractor to proceed with the work is so terminated the owner may take possession of and utilize in completing the work under this contract such materials, appliances, supplies, plant and equipment as may be on the site of the work and necessary therefore.

6/2007

END OF SECTION

COMPLIANCE WITH EXECUTIVE ORDERS

This contract is subject to the provisions of Executive Order No. Three of Governor Thomas J. Meskill promulgated June 16, 1971, and, as such, this contract may be cancelled, terminated or suspended by the State Labor Commissioner for violation of or non compliance with said Executive Order No. Three, or any state or federal law concerning nondiscrimination, notwithstanding, that the Labor Commissioner is not a party to this contract.

The parties to this contract, as part of the consideration hereof, agree that said Executive Order No. Three is incorporated herein by reference and made a part hereof. The parties agree to abide by said Executive order and agree that the State Labor Commission shall have continuing jurisdiction in respect to contract performance in regard to nondiscrimination, until the contract is completed or terminated prior to completion.

The contractor, agrees as part consideration hereof, that this contract is subject to the Guidelines and Rules issued by the State Labor Commissioner to implement Executive Order No. Three, and that he will not discriminate in his employment practices or policies, will file all reports as required, and will fully cooperate with the State of Connecticut and the State Labor Commissioner.

This contract is also subject to provisions of Executive Order No. Seventeen of Governor Thomas J. Meskill promulgated February 15, 1973, and, as such, this contract may be cancelled, terminated or suspended by the contracting agency or the State Labor Commissioner for violation of or noncompliance with said Executive Order No. Seventeen, notwithstanding that the Labor Commissioner may not be a party to this contract.

The parties to this contract, as part of the consideration hereof, agree that Executive Order No. Seventeen is incorporated herein by reference and made a part hereof. The parties agree to abide by said Executive Order and agree that the contracting agency and the State Labor Commissioner shall have joint and several continuing jurisdiction in respect to contract performance in regard to listing all employment openings with the Connecticut State Employment Service.

Executive Order No. 7C

This Contract is subject to **Executive Order No. 7C of Governor M. Jodi Rell, promulgated on July 13, 2006**. The Parties to this Contract, as part of the consideration hereof, agree that:

a. The State Contracting Standards Board (“Board”) may review this contract and recommend to the state contracting agency termination of this contract for cause. The State contracting agency shall consider the recommendations and act as required or permitted in accordance with the contract and applicable law. The Board shall provide the results of its review, together with its recommendations, to the state contracting agency and any other affected party in accordance with the notice provisions in the contract not later than fifteen (15) days after the Board finalizes its recommendation. For the purposes of this Section, “for cause” means:

(1) A violation of the State Ethics Code (Chapter 10 of the general statutes) or section 4a-100 of the general statutes or

(2) Wanton or reckless disregard of any state contracting and procurement process by any person substantially involved in such contract or state contracting agency.

b. For purposes of this Section, “contract” shall not include real property transactions involving less than a fee simple interest or financial assistance comprised of state or federal funds, the form of which may include but is not limited to grants, loans, loan guarantees, and participation interests in loans, equity investments and tax credit programs. Notwithstanding the foregoing, the Board shall not have any authority to recommend the termination of a contract for the sale or purchase of a fee simple interest in real property following transfer of title.

c. Notwithstanding the contract value listed in sections 4-250 and 4-252 of the Connecticut General Statutes and section 8 of Executive Order Number 1, all State Contracts between state agencies and private entities with a value of \$50,000 (fifty thousand dollars) or more in a calendar or fiscal year shall comply with the gift and campaign contribution certification requirements of section 4-252 of the Connecticut General Statutes and section 8 of Executive Order Number 1. For purposes of this section, the term “certification” shall include the campaign contribution and annual gift affidavits required by section 8 of Executive Order Number 1.

DEPARTMENT OF DEVELOPMENTAL SERVICES

Project Title: Roofing Project
318 Mountain Road, Newington about 4,100 sq ft.
265 Kennedy Road, Windsor about 3,600 sq ft.

TECHNICAL SPECIFICATIONS

SCOPE OF WORK

General Requirements

PART 1 GENERAL

SUMMARY OF WORK

1.01 Includes the complete Roof Replacement at the properties designated above.

1.02 The Contractor awarded the contract shall be responsible for the entire project.

The nature of this project requires the work of various trades including but not limited to:

- A. Demolition, Roofing, Carpentry, Sheet Metal, Painting, Electrical and related trades as may be required to complete the project including proper disposal of all debris including dumpsters. The Contractor shall provide the services of any and all trades as may be required to complete the work

1.03 The work includes:

- A. Removal of: existing roofing systems down to decking on main roofs, garages and sheds
- B. Preparation of decking for new roofing systems including replacement of one (1) 4'x8' sheet of plywood sheathing per home.
- C. Installation of New **Timberline Prestique 40 Shingles by GAF-Elk** or Agency approved alternate on main roofs, garages and sheds. (Color to be selected by Agency from manufacturers standard color selection)
- D. Installation of new GAF Cobra Snow Country Ridge vent System(s) and removal of any existing non-vented aluminum/vinyl soffit and wood soffit and installation of Vented Vinyl Soffit on main roofs to equalize air flow at ridge vent in accordance with manufacturer's specifications.
- E. Contractor will remove at least four pieces of any existing "vented vinyl soffit" per side and insure that there is proper air flow i.e. soffit is open with no wood obstructions or insulation.
- F. Removal of existing and installation of a pre-fabricated 3" wide .020 gauge (Color to be selected by Agency from manufacturers standard color selection) painted aluminum drip edge on all outer edges of the roof.
- G. Removal of all gutters and downspouts/leaders and installation of new .032 gage seamless aluminum gutters and new leaders as per manufacturer's specifications. (Color to be selected by Agency from manufacturers standard color selection)
- H. Installation of gutter guards by Gutta-Pro by Elko Products or Gutter Helmet® on all gutters. (Color to be selected by Agency from manufacturers standard color selection)
- I. Contractor to provide Agency with a The GAF-Elk Smart Choice® Shingle Limited Warranty or Agency approved equivalent for materials and labor.

PART 2 PRODUCTS

- 2.01 Manufacturers
- GAF Materials Corporation
 - Gutter Helmet or
 - Gutta-Pro by Elko Products Inc.
- 2.02 Accessories – manufactured by or approved by GAF to be compatible with roofing system and roofing system warranty.
- 2.03 Product substitutions - Requests to substitute products must be submitted to the Agency for approval at least 14 business days prior to the bid opening. No substitutions are allowed after bid approvals.

PART 3 EXECUTION

- 3.01 Demolition and installation of roofing and ventilation systems shall be in strict conformance to GAF Materials Corporation installation manuals.
- 3.02 Provide a copy of all installation manuals to Agency Representative prior to Pre-construction meeting.
- 3.03 Remove existing roofing systems to decking including: ALL Existing vent boots, flashings, counter flashings and accessories at all existing roof penetrations and wall/ roof flashings, chimney flashing and counter flashings.
- 3.04 Provide and install new vent boots, flashings, counter flashings and accessories at all existing roof penetrations and wall/ roof flashings, chimney flashing and counter flashings and Roofing System.
- 3.05 The Contractor shall be responsible to remove existing siding, and building materials as may be required to provide for proper installation of all sheathing, flashings, counter flashings soffit, fascia, gutters, gutter guards and leaders.

General Requirements

- 3.06 The Contractor shall be responsible to provide and install new siding and building materials to match the existing at areas that receive new flashings. Installation shall be in strict conformance to approved material manufacturer's installation manual(s).
- 3.07 ALL WORK SHALL BE COMPLETED TO ENSURE A WATERTIGHT AND WEATHER TIGHT INSTALLATION.
- 3.08 PROTECTIVE COVERINGS

The Contractor must have at the work site a sufficient amount of moisture-proof covering and fasteners to provide quick temporary protection to any roof in the event of a rapid change in weather.

THE CONTRACTOR SHALL FULLY PROTECT ALL PARTS OF THE ROOFS AGAINST DAMAGE UNTIL FINAL ACCEPTANCE BY THE AGENCY REPRESENTATIVE. ALL WATER DAMAGE DUE TO ANY AND ALL LEAKS, OR ANY OTHER TYPE OF DAMAGE SHALL BE REPLACED WITH NEW WORK BY THE CONTRACTOR AT CONTRACTOR'S EXPENSE.

This includes but not limited to: replacement of building materials, finishing the same with appropriate finish to match the surrounding areas including paint and trim.

The Contractor shall be responsible to repair or replace as directed by the Agency Representative any other damage of all descriptions including but not limited to: damaged furniture, carpeting, wall paper, personal property and related items.

Repairs and replacement of damaged items shall be made by the Contractor at no expense to the Agency. As a condition of payment, the Contractor shall complete all such repairs or replacement to the satisfaction of the Agency Representative.

3.09 TEMPORARY SANITARY FACILITIES

- A. The Contractor shall provide for the use of all personnel, where directed, adequate temporary sanitary facilities, service and maintenance, such as chemical toilets, temporary wash basins, and water supply, toilet tissue, soap and paper towels.

3.10 OSHA REGULATIONS FALL PROTECTION

It is understood that the Contractor shall comply with all OSHA regulations including but not limited to 29 CFR 1925 Fall Protection

END OF SECTION

CARPENTRY

PART 1 GENERAL

1.01. The work under this section consists of the furnishing of all labor, materials, services and equipment to properly complete all items of work described in the specifications, plans or reasonably implied.

1.02 DESCRIPTION OF WORK

Work includes carpentry and related work through out the project. Carpentry is performed for coordination of the work, to uncover work for access or inspection, to permit alterations to be performed or for other similar purposes. Do all cutting, patching and related work necessary for installation of items and completion of the work.

PART 2 PRODUCTS

- A. General - Except as otherwise noted, use materials for cutting and patching that are identical to existing materials or specified by latest code.
- B. Fasteners: Standard items of sufficient strength for intended use. Fasteners subjected to moisture shall be hot-dip galvanized, stainless steel or other non-corrosive material.

PART 3 EXECUTION

- A. Verify all dimension and conditions in the field. Be responsible for the correctness of all fitting and the proper attachment of all carpentry, and provision for proper attachment of work, and related work of other trades.
- B. Perform all carpentry required for temporary work.
- C. As directed by the Plant Facilities Engineer, provide temporary enclosure consisting of temporary walls and doors to protect building exterior and or to prevent access to the structures.
- D. All temporary work and protection shall be removed from the job at its completion.
- E. Nailers, and blocking - Furnish and install all necessary blocking, nailers, etc., of sizes and shape required to bring finished work to proper position and to afford good solid fastenings for all work and equipment of all trades, including but not limited to; Sheet Metal, Mechanical and Electrical.
- F. Provide related work as required
- G. CLEANING
 - 1. The contractor shall at all times keep the premises free from surplus material and rubbish. At the completion of the work, the contractor shall remove his entire plant and equipment and shall remove all rubbish, waste, and surplus materials. The contractor shall employ such means (magnets etc) as may be necessary to remove all fasteners from lawns, gardens, sidewalks and driveways. He shall leave the premises broom clean.

END OF SECTION

MOISTURE PROTECTION SHINGLES

PART 1 GENERAL

1.01 SECTION INCLUDES

- A. Asphalt roofing shingles
- B. Leak barrier and deck protection.
- C. Metal flashing associated with shingle roofing.
- D. Attic Ventilation.

1.02 RELATED WORK

- A. Rough Carpentry: Framing, wood decking and roof sheathing.
- B. Flashing and Sheet Metal: Sheet metal flashing not associated with shingle roofing; gutters and downspouts.

1.03 REFERENCES

- A. ASTM D 3018 – Standard Specifications for Class A Asphalt Shingles Surfaced with Mineral Granules.
- B. ASTM D 3161 – Standard Test Method for Wind Resistance of Asphalt Shingles (Fan-Induced Method.)
- C. ASTM D 3462 – Standard Specification for Asphalt Shingles Made from Glass Felt and Surfaced with Mineral Granules.
- D. ASTM D 4586 – Standard Specification for Asphalt Roof Cement, Asbestos –Free.
- E. UL 790 – Tests for Fire Resistance of Roof Covering Materials.
- F. UL 997 Wind Resistance of Prepared Roof Covering Materials.
- G. Asphalt Roofing Manufacturers Association (ARMA)
- H. National Roofing Contractors Association (NRCA)

1.04 SUBMITTALS

- A. Submit copies of GAFMC's product data sheets, detail drawings and samples for each type of roofing product.
- B. Submit two (2) copies of manufacturer's installation manual for each product.

MOISTURE PROTECTION SHINGLES

1.05 QUALITY ASSURANCE

- A. Manufacturer Qualifications: Provide all primary roofing products, including shingles, underlayment, leak barrier and ventilation by a single manufacturer.
- B. Installer Qualifications:
 - 1. Installer must be approved for installation of all roofing products to be installed under this section.
 - 2. Installer Qualifications: Company specializing in installation of specified type(s) roofs and gutters with minimum ten (10) years documented experience.

1.06 REGULATORY REQUIREMENTS

- A. Provide a roofing system achieving an Underwriters Laboratories (UL) Class A fire classification.
- B. Install all roofing products in accordance with all international, federal, state and local building codes.
- C. All work shall be performed in a manner consistent with current OSHA guidelines.

1.07 PREINSTALLATION MEETING

- A. A Pre-Installation Meeting will be scheduled by the Agency Representative.
- B. Timing: The meeting shall take place prior to the start of the roofing installation.
- C. Attendees: Meeting's mandatory attendees shall include the Contractor and the Agency Representative(s).
- D. Topics: Contractor and Agency Representative shall review all pertinent requirements for the project, including but not limited to; scheduling, weather considerations, project duration and requirements for the specified warranty.

1.08 DELIVERY, STORAGE AND HANDLING

- A. Store all products in manufacturer's unopened, labeled packaging until they are ready for installation.
- B. Store products in a covered, ventilated area, at room temperature not more than 110 degrees F (43 degrees C); do not store near steam pipes, radiators or in direct sunlight.
- C. Store bundles on a flat surface. Maximum stacking height shall not exceed GAFMC's recommendations. Store all rolls on end.
- D. Store and dispose of solvent based materials in accordance with all federal, state and local regulations.

MOISTURE PROTECTION SHINGLES

1.09 WEATHER CONDITIONS

- A. Proceed with work only when existing and forecasted weather conditions will permit work to be performed in accordance with GMAC's recommendations.

1.10 WARRANTY

- A. Provide to the Agency a GAF-Elk Smart Choice® Shingle Limited Warranty.

PART 2 PRODUCTS

2.01 MANUFACTURERS

- A. Acceptable Manufacturer: GAF Materials Corporation, 1361 Alps Road, Wayne, NJ 07470. Tel. 1-973-628-3000. www.gaf.com

2.02 SHINGLES

Heavyweight, granule surfaced, self sealing asphalt shingle with a strong fiberglass reinforced Micro Weave® core and StainGuard® protection, which prevents pronounced discoloration from blue-green algae through formulation/unique blends of granules. Architectural laminate styling provides a wood shake appearance with a 5" or 5 5/8" exposure. Features GAF-Elk's patented High Definition® color blends and enhanced shadow effect. . UL 790 Class A rated with UL 997 Wind Resistance Label; ASTM D 7158, Class H; ASTM D 3161, Type 1; ASTM D 3018, Type 1; ASTM D 3462; CSA 123.5-98; Dade County Approved, Florida Building Code Approved, Texas Dept of Insurance Approved, ICC Report Approval. **Timberline® Prestique® 40 High Definition Shingles, by GAF-Elk.**

- A. Color: As selected by Agency from manufacturer's full range.

2.03 HIP AND RIDGES SHINGLES

- A. High profile self-sealing hip and ridge cap shingle matching the color of selected roof shingle. **Ridglass™ 12" Ridge Cap Shingles** by GAF-Elk.

2.04 STARTER STRIP

- A. Self-sealing starter course. Each strip measures 7" tall by 36" wide. One bundle covers approx. 33 linear feet. **WeatherBlock™ Starter Strips**, by GAFMC.

2.05 LEAK BARRIER

- A. Self-Adhering, self-sealing, bituminous leak barrier surfaced with fine, skid-resistant granules. Each roll contains approx. 150 sq. ft, 65 lbs (29.9 kg), 36" x 50' or 200 sq. ft, 85 lbs (38.6 kg), 36" x 66.7' .58 mils thick. **WeatherWatch®**, by GAFMC.

MOISTURE PROTECTION SHINGLES

2.06 SHINGLE UNDERLAYMENT

Water repellent, breather type cellulose/glass fiber composite roofing underlayment. **Shingle-Mate®**, by GAFMC.

2.07 ROOFING CEMENT

- A. General-purpose asphalt roofing cement meeting the requirements of ASTM D 4586, Type I or II. **Leak Buster Matrix Standard Wet/Dry Roof Cement #204**, by BMCA.

2.08 ATTIC VENTILATION

Rigid plastic ridge ventilator designed to allow the passage of hot air from attics while prohibiting snow infiltration. For use in conjunction with eave/ soffit intake ventilation products. Provides 18.0 sq inches (11613 sq.mm/m) NFVA per lineal foot. Each package contains 40 lineal feet (12.19m) of vent. **Cobra® Snow Country™ or Cobra® Snow Country Advanced™** Ridge Vent (includes 3" (76mm) galvanized ring shank nails), by GAF-Elk or Agency approved alternate.

- A. Perforated Soffit Ventilation – manufactured by GAF as specified.

2.09 NAILS

- A. Standard round wire, zinc coated steel or aluminum; 10 to 12 gauge, barbed or deformed shank, with heads 3/8 inch (9.5 mm) to 7/16 in. (11mm) in diameter. Length must be sufficient to penetrate into solid wood at least 3/4 in. (19mm) or through plywood or oriented strand board by at least 1/8 in.
- B. Copper nails shall be used at all locations where contact with fiber flashing is present.

2.10 METAL FLASHING

- A. 20 oz. Copper sheet, complying with ASTM B 370 chimney flashing, counter flashing, valley flashing.
- B. Aluminum flashing and counter flashing per roofing material manufacturer's installation manual.
- C. Vent Boots – to comply with roof manufacturer's recommendation to insure warranty.

PART 3 EXECUTION

a. EXAMINATION

- A. Do not begin installation until the roof deck has been properly prepared.

b. PREPARATION

- A. Remove all existing roofing down to the roof deck.
- B. Verify that the deck is dry, sound, clean and smooth. It shall be free of any depressions, waves and projections. Cover with sheet metal, all holes over 1 inch (25mm) in diameter, cracks over 1/2 inch (12mm) in width, loose knots and excessively resinous areas.
- C. Provide unit pricing for replacement of any damaged deck materials.
- D. Clean deck surfaces thoroughly prior to installation of eaves protection membrane and underlayment.

c. UNDERLYMENT APPLICATION

A. General:

1. Install using methods recommended by approved materials manufacturer(s), in accordance with applicable building codes. When local codes and application instructions are in conflict, the more stringent requirements shall take precedence.

B. Eaves

1. Install eaves edge metal flashing tight with fascia boards; lap joints 2 inches (50mm) and seal with plastic cement; nail at the top of the flange.
2. Install eaves protection membrane up the slope from eaves edge a full 36 inches or to at least 24 inches (610mm) beyond the interior "warm wall". Lap ends 6 inches (150mm) and bond.

C. Valleys:

1. For "closed-cut," "woven," and "open" valleys install eaves protection membrane at least 36 inches wide and centered on the valley. Lap ends 6 inches (150mm) and seal.
2. Where valleys are indicated there are to be "closed-cut" install metal flashing over eaves protection membrane before roof deck underlayment is installed; DO NOT nail through the flashing. Secure the flashing by nailing at 18 inches (457mm) on center just beyond edge of flashing so that the nail heads hold down the edge.

MOISTURE PROTECTION SHINGLES

D. Roof Deck

1. Install one layer of roof deck underlayment over the entire area not protected by eaves or valley membrane. Install sheets horizontally so water sheds and nail in place.
2. On roofs sloped at more than 4 in 12, lap horizontal edges at least 2 in. (50mm) and at least 2 in (50mm) over eaves protective membrane.
3. On roofs sloped between 2 in 12 and 4 in 12, lap horizontal edges at least 19 inches (480mm) and at least 19 inches (485mm) over eaves protective membrane.
4. Lap ends at least 4 inches (100mm) Stagger end laps of each layer at least 36 inches (915mm)
5. Lap underlayment over valley protection at least 6 inches (150mm)

E. Penetrations

1. Vent pipes: install a 24 inch (610mm) square piece of eaves protection membrane lapping over roof deck underlayment; seal tightly to pipe.
2. Vertical walls: Install eaves protection membrane from under the built-in counter flashing and 12 inches (305mm) on to the roof surface lap the membranes over the roof deck underlayment.
3. Skylights and roof hatches: Install eaves protection membrane from under the built-in counter flashing and 12 inches (305mm) on to the roof surface lapping over roof deck underlayment.
4. Chimneys: Install eaves protection membrane around entire chimney extending at least 6 inches (150mm) up the wall and 12 inches (305mm) on to the roof surface. Lap the membrane over roof deck underlayment.
5. Rake edges: Install metal edge flashing over eaves protection membrane and roof deck underlayment; set tight to rake boards; lap joints at least 2 inches (50mm) and seal with plastic cement; secure with nails.

d. INSTALLATION OF SHINGLES

a) General:

1. Install in accordance with approved materials manufacturer(s) instructions and local building codes. When local coeds and application instructions are in conflict, the more stringent requirements shall take precedence.
2. Minimize breakage of shingles by avoiding dropping bundles on edge, by separating shingles carefully (not by "breaking" over ridge of bundles), and by taking extra precautions in temperatures below 40 degrees F (4 degrees C).
3. Handle carefully in hot weather to avoid scuffing the surfacing, or damaging the shingle edges.

MOISTURE PROTECTION SHINGLES

b) Placement and Nailing:

1. Secure with 4,5 or 6 nails per shingle per approved materials manufacturer(s) instructions or local codes.
2. Placement of nails varies based on the type of shingle specified. Consult the application instructions for the specified shingle details.
3. Nails must be driven flush with the shingle surface. Do not overdrive or underdrive the nails.
4. Shingle offset varies based on the type of shingle specified. Consult the application instructions for the specified shingle for details.

c) Penetrations

1. All penetrations are to be flashed according to GAFMC, ARMA and NRCA application instructions and construction details.

d) Ridge/ Soffit Ventilation

1. Install ridge vent along the entire length of ridges:
2. Cut continuous vent slots through the sheathing, stopping 6 inches (150mm) from each end of the ridge.
3. On the roofs without a ridge board, make a slot 2 inches (50mm) wide, centered on the ridge.
4. VENTILATION two slots 1 ¾ inches (42mm) wide, one on each side.
5. Install ridge vent material along the full length of the ridge, including uncut areas.
6. Butt ends of ridge vent material and join using roofing cement,
7. Install Master Flow[®] Soffit/Undereave Vents as per manufacturers specifications.
 - a.) Remove existing soffit as required, remove wood soffit in sufficient quantity to equal or exceed the ridge vent area.
 - b.) Provide and install new perforated soffit in sufficient quantity to equal or exceed the ridge vent area.

e. Protection

1. Protect installed products from foot traffic until completion of the project.
2. Any roof areas that are not completed by the end of the workday are to be protected from moisture and contaminants.

END OF SECTION

SIDING, SOFFITS, FASCIA, RAKES, CORNICE, TRIM

PART 1 GENERAL

1.1 SECTION INCLUDES

- A. Siding – Cornice -Soffits – Fascias – Rakes - Trim and Accessories.
- B. Custom trim shapes made on project site.

1.2 REFERENCES

- A. Manufacturer's installation manuals and product specifications.

1.4 SUBMITTALS

- A. Submit Manufacturer's data sheets on each product to be used, showing compliance with requirements.
- B. Selection Samples: Two complete sets of color cards representing manufacturer's full range of available colors.
- C. Two complete sets of Manufacturer's installation instructions, and manuals showing required preparation and installation procedures.

1.5 DELIVERY, STORAGE, AND HANDLING

- A. Store products in manufacturer's unopened labeled packaging until ready for installation.
- B. Store boxes on flat surface to maximum height recommended by manufacturer.

PART 2 PRODUCTS

2.1 MANUFACTURERS

- A. Acceptable Manufacturer:
Vinyl Siding, Trim, Fascias, Rakes, Soffits, Accessories:
CertainTeed Corporation 1.800.233.8990
- B. Requests for substitutions will be considered in accordance with provisions of project specifications.

SIDING, SOFFITS, FASCIA, RAKES, CORNICE, TRIM

2.2 MATERIALS

- A. Siding: Match existing
 - 1. Color: match existing.
 - 2. Siding Accessories: match existing.
- B. Fascia: Aluminum sheet, painted before forming; size to match existing – grain embossed, 024 inch (.06 mm) thickness with two coat acrylic finish.
 - Color: match existing.
 - Accessories: match existing.
- C. Aluminum Sheet For Custom Trim Shapes: Tension-leveled aluminum sheet coil, suitable for brake bending in the field.
 - Finish Coating: PVC Striated two coat solvent-based PVC, 3.3 to 3.7 mils (0.084 to 0.094 mm) thick. Sheet thickness 0.021 inch (0.056 mm), nominal.

2.3 ACCESSORIES

- A. Fasteners: Galvanized nails or other corrosion-resistant fasteners, as recommended by manufacturer for specific application.
- B. Joint Sealers: As specified per material manufacturer's specifications.

PART 3 EXECUTION

3.1 EXAMINATION - surfaces on which products are to be installed are weather tight and ready for installation.

- A. Do not begin installation until surfaces have been properly prepared; notify Agency Representative of unsatisfactory preparation before proceeding.

3.2 INSTALLATION

- A. Install siding, soffit/trim and accessories in strict accordance with manufacturer's instructions and applicable building codes.
- B. Install products level, plumb and true.
- C. Securely attach products using methods and materials recommended by manufacturer for wind load conditions at project site.

3.3 CLEANING

- A. Clean dirt from surface of installed products, using mild soap and water.
- B. Upon completion of installation, remove from project site excess materials and debris caused by the project.

3.4 PROTECTION

- A. Protect installed products until completion of project.
- B. Touch-up, repair or replace damaged products before Substantial Completion.

END OF SECTION

MOISTURE PROTECTION SEAMLESS GUTTERS & DOWNSPOUTS

PART 1 GENERAL

1.01. The work under this section consists of the furnishing of all labor, materials, services and equipment to properly complete all items of work described in the specifications, plans or reasonably implied.

1.02 DESCRIPTION OF WORK

- a. Per Roofing Schedule: Remove all existing gutters, downspouts and accessories from buildings and site.
- b. Per Roofing Schedule: Furnish all labor, materials and equipment for a complete new commercial grade seamless gutter, gutter guards and downspout system.

1.03 SUBMITTALS

- a. Submit two (2) copies of all manufacturers' installation manuals.
- b. Shop Drawings: Submit line drawing indicating gutter and downspout layout.
- c. Submit certificates of conformance with current Connecticut Basic Building Code: Gutters are sized to meet code requirements for roof size. Downspouts are sized and in sufficient number and locations to meet code requirements.
- d. Submit documentation that system meets or exceeds manufacturer specifications and recommendations: Gutters are sized to meet requirements for roof size. Downspouts are sized and in sufficient number and locations to meet requirements. Gutter Hangers and Downspout brackets are sized and installed to meet manufactures specifications.
- e. Submit samples of all materials and accessories.

PART 2 PRODUCTS

2.01

- a. All materials and accessories provided by one manufacturer.
The following manufacturers establish a level of acceptable quality
 - Alcoa
 - Gutta-Pro or Gutter Helmet® or Agency approved alternate.
- b. Gutters, downspouts, hangers and accessories shall be of commercial grade.
- c. Finish: Interior – corrosion resistant finish; exterior primer plus baked on acrylic topcoat by manufacturer. Color to match existing facility system.
- d. Hangers: Commercial grade hanger system shall be secured with screws approved by manufacturer. Gutter spikes or nails are not permitted.

**MOISTURE PROTECTION
SEAMLESS GUTTERS & DOWNSPOUTS**

- e. Gutter Guards: Provide and install premium grade gutter guard system such as Gutta-Pro manufactured by Elko Products or Gutter Helmet® or equal approved by Agency.
- f. Downspout brackets: Commercial grade bracket system shall be secured with screws approved by manufacturer. Strap system not permitted. Spikes or nails are not permitted.
- g. Splash blocks: Provide and install commercial grade PVC splash blocks for each downspout.

PART 3 EXECUTION

3.01 INSTALLATION

- a. Verify all dimension and conditions in the field. Be responsible for the correctness of all fitting and the proper attachment of work; clean and repair adjoining work upon which proper installation work is dependent.
- b. Install system in strict conformance to manufacturer's installation manual and specifications.
- c. All gutter hangers and downspout brackets to be fastened to solid lumber with screws. Type, size and spacing shall be in accordance to manufacturer's installation manual. Nails or gutter spike type fasteners are not permitted.

3.02 CLEANING

- a. The contractor shall at all times keep the premises free from surplus material and rubbish.
- b. Provide and use drop cloths to protect grounds and plantings from debris, nails, screws and materials. Provide and use magnetic brooms, rakes and equipment to ensure all materials are removed from the site.
- c. At the completion of the work, the contractor shall remove the entire plant and equipment and shall remove all rubbish, waste, and surplus materials. Contractor shall leave the premises broom clean.
- d. Any damage to the site shall be repaired by the Contractor to the satisfaction of the Agency Representative.

3.03 WARRANTY

- a. Contractor shall provide 20-year warranty for labor and materials.

END OF SECTION

ELECTRICAL

PART 1 GENERAL

- 1.01 The work under this section consists of the furnishing of all labor, materials, services and equipment to properly complete all items of work.
- 1.02 DESCRIPTION OF WORK
- Provide electrical services as may be required to complete the Project such as but not limited to: Removal and re-installation of all existing electrical fixtures, conduit, CATV, Satellite and communication wiring and associated electrical items as required proceeding with and completing the Project.
- 1.03 CODES AND STANDARDS
- 1.04 Only Electrician(s) licensed to perform work of this scope in the State of Connecticut shall perform the work. Submit a copy of license(s) prior to start of work.
- 1.05 Electrical materials and their installation shall comply in all respects with:
- a. State of Connecticut Building Codes
 - b. State of Connecticut Fire Safety Codes
 - c. National Electrical Codes

PART 2 PRODUCTS

- 2.01 Re-Install all materials removed during the course of the work
- 2.02 Provide ALL miscellaneous materials and accessories as may be necessary to complete the work.

PART 3 EXECUTION

- 3.01 Extent of electrical work shall include all labor, equipment and services required to complete, ready for correct operation all electrical work as may be required to complete the project, including but not limited to the following:
- 1 Removal of existing electrical work as required.
 - 2. Re-working of existing electrical items as required.
 - 3. Re-Installation of existing electrical items. Test electrical work for proper operation.
 - 4. Installation and removal of protective coverings at electrical service lines.
- 3.02 CLEANING
- 1. The contractor shall at all times keep the premises free from surplus material and rubbish and he shall not have undue surplus material for which there is no immediate use which may delay and hinder other contractors employed on the work.
 - 2. At the completion of the work, the contractor shall remove his entire plant and equipment and shall remove all rubbish, waste, and surplus materials. He shall leave the premises broom clean.

END OF SECTION

Chimney Re-point / Repair at flashing site

Re-pointing Masonry: area of flashing replacement as needed.

- Rake out mortar to expose sound mortar.
- Cut out old mortar by hand with chisel and mallet and or electric grinder.
- Rinse joint surfaces to remove dust and mortar particles, leaving surfaces damp but free of standing water.
- Apply the first layer of pointing mortar to areas where existing mortar was removed to depths greater than surrounding areas. After joints have been filled to uniform depth, place remaining pointing mortar in three (3) layers. Compact each layer and allow becoming "thumbprint" hard before applying next layer.
- When mortar is "thumbprint" hard, tool joints to match, as best possible existing joints.

NOTES:

- Brick removal: Carefully remove bricks that are visibly cracked / broken. Cut out units from joint to joint and in a manner that permits replacement with (new) full sized units.
- Support and protect remaining masonry that surrounds removal area. Maintain existing reinforcement, lintels and adjoining construction in undamaged condition. Replace existing flashing as per the specifications.
- Salvage as many undamaged / whole bricks as possible.
- Remove mortar, loose particles and soil from salvaged brick.
- Clean remaining brick at removal areas of mortar, dust any and all loose particles.

Brick rebuilding:

- Install new match existing as best possible, and salvaged brick into bonding and coursing pattern of existing brick.
- Lay brick with completely filled bed, head and color joints. Wet clay bricks should be evaluated for absorption rates (suction) to insure joint width matching to existing.
- All mortar joints require tooling to match existing.

TIMBERLINE® PRESTIQUE® LIFETIME

HIGH DEFINITION® SHINGLES

North America's
#1-Selling
Architectural
Shingles!

For just pennies-a-day more, you can enjoy the **thickest, longest-lasting Timberline® Prestique®** shingle (and increase your resale value, too!)

Timberline® Prestique® Lifetime shingles will cost you just a moderate amount more than standard architectural shingles. In return, you can enjoy having the longest-lasting, thickest, and most-dimensional wood shake look for your roof. Thanks to layers that are up to 32% thicker than standard architectural shingles*, combined with our patented High Definition® blends, Timberline® Prestique® Lifetime shingles offer a natural beauty and incredible thickness that you'll notice and appreciate. *(Not to mention how much they'll increase the resale value of your home!)*

Extra-thick layers (up to 32% thicker than standard architectural shingles) give Timberline® Prestique® Lifetime shingles a natural beauty that you'll notice and appreciate.*

*Note: Thickness varies by plant; see actual shingles for comparison.

- Approximately 256 Nails/Sq. (Metric)
- 5 3/8" exposure (Metric)

†Requires special installation; see limited warranty for details.
 *Applies to most plants.
 **Product is manufactured to meet or exceed ASTM D3462; values from subsequent testing will vary depending on storage conditions

The many layers of a Timberline® Prestique® Shingle

Diamond Cut™ Granules... Multi-faceted design and light-reflective construction add dimension and depth to the shingle

UV Blocker (Granules)... Protects against damaging sunlight which improves the durability and extends the life of the shingle

Color Lock™ Ceramic Firing (Granules)... Maintains the true color of the shingle longer

Dura Grip® Adhesive... Locks the shingles in place on the roof, gripping tight in even strong gale force winds

SpecSelect Grading System (Asphalt)... Use of finest quality asphalt improves weathering in harsh conditions

Micro Weave® Core... Offers a superior strength foundation that resists cracking and splitting

FiberTech® Components (Core)... Incorporates fibers that are non-combustible, providing a UL Class A fire rating

Cobra® EXHAUST VENT

For Roof Ridge

**Rated #1
In Quality!**

By Professional
Home Builders

Homeowner's Best Choice

- **Vents Your Attic...** Allows heat and condensation to escape at the most effective location—the ridge.
- **Looks Terrific...** 100% shingle-over design is virtually invisible when installed.
- **Superior Protection...** Helps to prevent wood rot and extends the life of your exterior paint.
- **Safeguards Possessions...** Helps limit mildew growth caused by damp attic air.
- **Energy Efficient...** May even reduce your utility bills!
- **Weatherproof...** Passes 110 mph wind-driven rain and snow infiltration tests.*
- **Safer...** Helps prevent problems with insects, birds, and animals in your attic.
- **Peace Of Mind...** Backed by a 40-year ltd. warranty.**

*Under controlled laboratory conditions.

**See ltd. warranty for complete coverage and restrictions.

Professional's Best Choice

- **Greater Homeowner Satisfaction...** Low-profile design is hidden by ridge cap shingles.
- **Easy To Install...** Quick, 3-step process; no need for complicated fitting, wrapping, connectors, or end plugs.
- **Nails Included...** Smart Nails™ for hand-nailing, or 1 3/4" coil nails for nail guns, ensure consistent installation.
- **Superior Performance...** Net free ventilating area: Cobra® Hand Nail: 16.9 sq. in./linear foot
Cobra® Nail Gun: 14.1 sq. in./linear foot
- **More Reliable...** Will not crack or dent during shipping or installation; won't corrode, rust, or turn brittle.
- **Cap Shingle Compatible...** Works with traditional size ridge cap shingles.
- **Two Sizes...** Available in 20' & 50' rolls.

Balanced Ventilation Requirements

Balanced ventilation requires an equal amount of intake ventilation and exhaust ventilation. GAF-Elk recommends, at a minimum, providing 1 square foot of Net Free Ventilation for every 300 square feet of attic floor space. Consult local building codes for specific ventilation requirements in your area.

1. Calculate the total square footage of the attic floor area (round up to the next highest number). This number will determine the minimum total linear feet of Cobra® exhaust vent that is needed.
2. Find the appropriate amount of Cobra® exhaust vent and minimum intake ventilation that corresponds to the total attic square footage.

Based on 1/300 Rule

Total Attic Square Footage	Recommended Length of Cobra® Exhaust Vent (Feet) *	Minimum Intake Ventilation (Net Free Area in Sq. In.) *
1600	23/28	389/395
1900	27/33	457/466
2200	32/38	541/536
2500	36/43	609/607
2800	40/48	676/677
3100	45/53	761/748
3400	49/58	829/818

*First figure pertains to hand nail, second figure pertains to nail gun.

NOTE: Always have a balanced ventilation system. In no case should the amount of exhaust ventilation at the ridge exceed the amount of soffit ventilation.

Cobra® SNOWCOUNTRY™

Exhaust Vent for Roof Ridge

Cobra® Vents Rated #1 In Quality By Professional Home Builders!

**Includes:
EasyTear™
Sizing System**

Homeowner's Best Choice

- **Vents Your Attic...** Allows heat and condensation to escape at the most effective location—the ridge.
- **Looks Terrific...** Shingle-over design blends into your ridge line.
- **Watertight...** Passes the 110 mph wind-driven rain test.*
- **Snow Guard™...** Helps prevent snow infiltration in harsh winter weather.
- **Insect Guard...** Specially-designed louver spacing helps keep insects out.
- **Energy Efficient...** May even reduce your utility bills!
- **Durable...** Designed with high impact polymers.
- **Peace Of Mind...** Backed by a 40-year ltd. warranty.**

*Under controlled laboratory conditions.

**See ltd. warranty for complete coverage and restrictions.

Professional's Best Choice

- **Effective...** Provides 18 sq. inches per linear foot of net free ventilating area.
- **Easy Sizing...** EasyTear™ feature allows you to hand-tear product in 3" increments—no knives necessary and less waste!
- **Fits Better...** Extra-flexible hinge design allows installation on 3:12 to 16:12 sloped roofs.
- **No End Caps Needed!**
- **Crush Resistant...** Internal structural support for added durability.
- **No Gaps...** Edge overhang allows smooth, continuous coverage between sections.
- **Less Call-backs...** External baffles help deflect wind and rain.
- **Cap Shingle Compatible...** Works with traditional size ridge cap shingles.

Balanced Ventilation Requirements

Balanced ventilation requires an equal amount of intake ventilation and exhaust ventilation. GAF-Elk recommends, at a minimum, providing 1 square foot of Net Free Ventilation for every 300 square feet of attic floor space. Consult local building codes for specific ventilation requirements in your area.

1. Calculate the total square footage of the attic floor area (round up to the next highest number). This number will determine the minimum total linear feet of Cobra® Snow Country™ exhaust vent that is needed.
2. Find the appropriate amount of Cobra® Snow Country™ exhaust vent and minimum intake ventilation that corresponds to the total attic square footage.

Based on 1/300 Rule

Total Attic Square Footage	Recommended Length of Cobra® Snow Country™ Exhaust Vent (Feet)	Minimum Intake Ventilation (Net Free Area in Sq. In.)
1600	22	396
1900	26	468
2200	30	540
2500	34	612
2800	38	684
3100	42	756
3400	46	828

Cobra® Snow Country™ exhaust vent has 18.0 sq. in./linear ft. of net free ventilating area.
NOTE: Always have a balanced ventilation system. In no case should the amount of exhaust ventilation at the ridge exceed the amount of soffit ventilation.

One box (40') of Cobra® Snow Country™ exhaust vent replaces:

WEATHERWATCH®

Mineral Surfaced **Leak Barrier**

Homeowner's Best Choice

- **Looks Better...** Fiberglass reinforcement helps resist wrinkling and buckling—lays flatter under shingles.
- **Meets Building Codes...** In the North, where leak barrier **MUST** be used.*
- **Peace Of Mind...** Benefits from the same warranty term as the asphalt shingle it is applied under, up to a maximum of 30 yrs.**

Professional's Best Choice

- **Helps Eliminate Waste...** Special adhesive allows for one-time repositioning, but aggressively adheres over time.
- **Safer Installation...** SlipGuard™ mineral surface improves footing.
- **Dependable...** Self-seals around nails or metal roofing fasteners.
- **Saves Labor...** Split-back release film peels off in layers for faster installation and greater homeowner value.
- **Convenient...** 1.5 and 2.0 square roll sizes.
- **Great For Emergencies...** Can be left exposed for up to 60 days if necessary.

**See ltd. warranty for complete coverage and restrictions (available at www.gaf.com).

GAF-Elk Weather Watch® EXCEEDS the following requirements of ASTM D1970

Property	Method	Requirement
Thickness (mils)	D5147	Min. 40
Tensile strength MD (lbf/in)	D2523	Min. 25
Tensile strength CMD (lbf/in)	D2523	Min. 25
Elongation at break, modified bitumen Portion – MD and CMD (%)	D2523	Min. 10
Adhesion to plywood at 75°F (lbf/ft-width)	D903	Min. 12
Adhesion to plywood at 40°F (lbf/ft-width)	D903	Min. 2
Thermal stability (mm)	D1204	Max. 3
Low temperature flexibility (-20°F)	D1970	Pass
Tear resistance MD (lbf)	D4073	Min. 20
Tear resistance CMD (lbf)	D4073	Min. 20
Moisture vapor permeance (U.S. perms)	E96 A	Max 0.1
Sealability around nail	D1970	Pass
Waterproof integrity after low temperature flexibility	D1970	Pass
Waterproof integrity of lap seam	D1970	Pass

Applicable Standards

- ICC-ES Evaluation Report (ESR 1322)
- Meets the performance criteria of ASTM D1970
- Texas Department of Insurance
- Miami-Dade County Approved
- State of Florida Approved
- UL Classified. See complete marking on product

SHINGLE-MATE®

Roof Deck Protection

Homeowner's Best Choice

- **Looks Better...** Fiberglass reinforced, so it lays flatter for a better-looking roof.
- **Lays Flatter...** Reduces the telegraphing of wrinkles that can occur with conventional organic felts.
- **Better Protection...** Eliminates the need to slit bubbled felt (which can compromise the waterproof integrity of your roofing system).

Professional's Best Choice

- **Avoid Downtime...** Dries faster and rolls out quicker than organic felts.
- **Reduces Call-backs...** Due to elimination of bumpy-looking shingle jobs.
- **Easier To Use...** Lighter and easier to handle than #30 felt.
- **Versatile...** Can be applied over plywood, wood plank, and all other approved decks.
- **Great Value...** Competitively priced with #30 felt on a per square basis.

Shingle-Mate® Roof Deck Protection vs. #30 Felt

	Shingle-Mate®	#30 Felt
Glass-reinforced to lay flatter and dry faster	Yes	No
Reduces the telegraphing of wrinkles across the roof	Yes	No
Lightweight and easy to handle	Yes	No
Rolls swiftly in the cold, early morning	Yes	No
Four-square coverage for faster installation	Yes	No
Meets physical requirements of ASTM D226, D4869, and is UL classified	Yes	Varies
Part of GAF-Elk Smart Choice® Roof System Solution	Yes	No
Price Competitive*	Yes	Varies

*Shingle-Mate® roof deck protection is often equal to or less than the price for #30 felts on a per square basis (prices vary by market).

See The Difference!

Conventional organic felts can absorb moisture, causing severe buckling and wrinkling.

Shingle-Mate® roof deck protection resists moisture, so it lays flatter!

Product Specifications (Nom.)

Roll length 144 ft
 Roll weight 30 lbs. per roll
 Approx. coverage 4 squares (432 sq. ft.)

Meets or exceeds the physical requirements of ASTM D226, D4869, and is UL classified

WEATHERBLOCKER™

Premium Eave/Rake Starter Strip

Homeowner's Best Choice

- **Looks Better...** Straighter roof edges and no messy black cement dripping onto your new white edge metal.
- **Best Performance...** Factory-applied Dura Grip® adhesive helps to lock down the roof edges at the eaves and rakes.
- **Peace Of Mind...** GAF-Elk tests show that using starter strips at the eaves and rakes helps to prevent blow-offs and potential leaks.
- **Superior Warranties...** GAF-Elk offers increased wind coverage on many shingles when you use starter strips.*

Professional's Best Choice

- **Saves You Time & Labor...** No more wasted time (or material) cutting your own starter strips—allows you to offer greater homeowner value.
- **Easier For Installers...** 42% more coverage per bundle (versus using strip shingles) means less to carry and handle on the roof.
- **Safer...** Perforated design eliminates cutting.
- **Environmentally Friendly...** Reduces landfill waste by eliminating shingle scraps.

*See ltd. warranty for complete details.

Product Specifications (Nom.)

Product Size	(full sheet) 17" x 40"
	(half sheet) 8.5" x 40"
Bundle Count	15 pieces (full sheet)
	30 pieces (half sheet)
Coverage Per Bundle	100 linear ft
	(when used as half sheets)
	50 linear ft
	(when used as full sheets)

Use entire strip when a starter of 17" will meet your needs

When a starter of 8.5" will meet your needs, tear in half along perforation

PRODUCT DATA SHEET

Elko® GuttaPro™

Product Description

The Elko® GuttaPro™ is a heavy duty, solid aluminum gutter protection product used to deflect leaves, pine needles, pollen and seed from accumulating in residential and commercial gutters while keeping gutters and downspouts free of debris and clogs. It is reinforced with ribs that increase water volume capacity and strengthen the panel for heavy snow loads. It is designed for professional installers only. It installs quickly and securely with the new, patent-pending Twist-Lok™ clip. When installed by a certified Elko installer, it has a 10 year no-clog warranty.

Product Packaging

The Elko® GuttaPro™ is available in 100 foot boxes. It is available only in 6 – 5/8" widths to fit 5 - 6" gutters.

Each 100' box includes:

- 25 panels of 4' length and 6' 5/8" width each
- 1 package of 80 Twist-Lok™ stainless steel clips and 80 magnetic stainless steel #8 screws
- 1 set of installation instructions (4 pages)
- 1 warranty registration card

Product Specifications

The Elko® GuttaPro™ is constructed of sturdy .018 gauge solid aluminum. It is also available in 12 ounce copper. Color availability is Gray, Black, Royal Brown and White.

Each panel is 4' in length. The product has a 20 year limited warranty, and is independently certified to handle at least 8" per hour of rain capacity. The Elko® GuttaPro™ installs easily on standard K-style aluminum gutters and half round gutters and vinyl gutters using the new Twist-Lok® clip.

The Elko® GuttaPro™ is available nationwide through Elko's wholesale building supply distribution network, or by contacting Elko directly at 1-800-331-4273.
