ADDENDUM #1

TOWN OF GREENWICH

REQUEST FOR PROPOSAL #6960 DUE DATE: 3/19/13 AT 3:00 P.M.

GREEN-E CERTIFIED RENEWABLE ENERGY CERTIFICATES

Question: I have reviewed your request for purchase of green certificates to achieve a "Clean Energy Community" designation from CEFIA. I am assuming that Greenwich intended at some point to install solar PV to generate ZREC's. Our company installs solar thermal, geothermal, hydropower and some small PV, which would accomplish the same end. The investment that you would make in these technologies, at your waste treatment plant, schools, fire and police departments, could generate the ZRECs in the future, while actually reducing your energy expenditures now. Financing the installations under the CEFIA C-PACE program, would mean no out of pocket spending for the Town, now. Could we pursue our approach as part of this bidding process?

Answer: No. The scope of this Request For Bid is strictly the Town's purchase of Green-E certified Renewable Energy Certificates (RECs).

ALL OTHER SPECIFICATIONS, TERMS AND CONDITIONS OF THIS RFB REMAIN UNCHANGED.

Joan T. Sullivan
Director of Purchasing
