TOWN OF GREENWICH

REQUEST FOR BID #6998 DEADLINE: 6/13/13 AT 3:00 PM

FABRIC BUILDING AT GREENWICH POINT

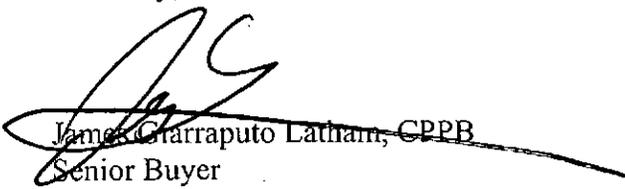

Question: I am requesting clarification for the use of used frame equipment for the structure covering the tractor shed. This equipment was used for the skating rink cover at the Greenwich Boys and Girls Club prior to their remodel. The frame is structurally sound with no defects other than the superficial blemishes. The fabric tops would all be new and built specifically for this installation. The fabric and structure would meet or exceed the engineering specifications, as stated in the RFB.

Answer: The frame at the Boys Club is much larger than what is required at the tractor shed. At that point they would have to rip the frame apart and re-weld everything to meet our shape and size requirements. Utilizing this material will not save any money as the man power required to re-size it will be very costly.

Bids must be based on new material.

ALL OTHER SPECIFICATIONS, TERMS AND CONDITIONS OF THIS BID REMAIN UNCHANGED.

Sincerely,

James Charraputo Latham, CPPB
Senior Buyer
