### **QUESTIONS/CLARIFICATIONS**

1. We will be including the school in the RFP. The school's kwh is 4,720,205. Attached is the spreadsheet for the school's billing/meters.

2. Can the insurance requirements be reduced?

Please provide a proposal with the specified insurance and, if applicable, one with suggested requirements; the Town will review and made a determination if the suggested is acceptable.

3. Audited financial requirement: we will accept audited financials or income statements and balance sheets for the past three (3) years.

4. Additional Terms & Conditions:

Contractor will warrant and agree that it will meet 100% of its projected performance goals for energy savings. If such goals are achieved, then said contract shall renew automatically from year-to-year, unless terminated for cause upon 60-days' prior written notice. Contractor further agrees that any escalation in such electricity costs, including costs of distribution, will not exceed two percent (2%) annually.
