

Turner Construction Company
REQUEST FOR PREQUALIFICATION APPLICATION
FOR
UNIVERSITY OF CONNECTICUT

**North Eagleville Road Area Infrastructure Repair/Replacement & Upgrades-
Phase IIIb Supplemental**
PROJECT NUMBER: 901990
Storrs, Connecticut

Issue Date: 11.08.16

Submission Due Date: 11.29.16

Turner Construction Company is currently prequalifying contractors for The **University of Connecticut– North Eagleville Road Area Infrastructure Repair/Replacement & Upgrades-Phase IIIb Supplemental**. (NOTE: If you have already been prequalified for Phase IIIa, you need not submit again as you have already been prequalified. Please be aware there will be a PLA in place for this phase. Current financials and EMR will be required).

The purpose of this project is to provide new and replace existing aged utilities in order to support the NextGEN Connecticut program. The Project is separated into Phases IIIA and IIIB and include the following general scopes of work: •Replacement of steam, condensate return, and high pressure drip piping as well as associated structures. •Replacement of a domestic water line on the north side of North Eagleville Road servicing the Towers Residence Complex. • Storm water collection systems. • Replacement/Installation of Electrical and telecommunications duct banks as well as associated structures from an existing crossing at Storrs Road. • Installation of a section of sanitary sewer force main piping from an existing crossing at Storrs Road. • Coordination with no fewer than two private property owners will be required to successfully implement this work. • Associated landscape improvements. • Reconfiguration of sections of North Eagleville Road. • Site restoration including road milling and overlay. There are many 2nd Tier Set-Aside Opportunities that include but not limited to: Paving, Line Stripping and Signage, Concrete Curbs and Sidewalks, Installing Electric Conduit, Material Suppliers, Erosion Control, Fencing and Maintenance, Surveying, Dumpsters, Trucking, Temporary Toilets, Progress Photos, Flagmen and Cleaning.

The University of Connecticut and Turner Construction Company will be implementing a Project Labor Agreement (PLA) for this project.

Subcontractors other than those bid packages designated as 100% Set Aside **OR** excluded (refer to the Prequalification Application for list) are advised they must award a minimum of thirty percent (30%) of the value of their awarded contracts to Connecticut certified SBE's; and of that amount, a minimum of 10% of the total award must be awarded to SBE's (**which includes ethnic minorities, WBE's and DisBE's**). The subcontractors are responsible for ensuring that they and the SBE firms they have selected are eligible contractors and that they meet State of Connecticut SBE and MBE requirements.

The Prequalification Application will be available at no cost to you by downloading from the Turner Construction Company FTP site. To be granted access and to receive an email with the link to the FTP site please contact Maryann Bigda at 203-712-6070.
