(a) The Contractor may deliver, cause to be delivered, or, in any other way, bring or cause to be brought, to any State premises or other destination, Goods, as samples or otherwise, and other supplies, materials, equipment or other tangible personal property. The State may, by written notice and in accordance with the terms and conditions of the Contract, direct the Contractor to remove any or all such Goods (“the “Rejected Goods”) and any or all other supplies, materials, equipment or other tangible personal property (collectively, the “Contractor Property”) from and out of State premises and any other location which the State manages, leases or controls. The Contractor shall remove the Rejected Goods and the Contractor Property in accordance with the terms and conditions of the written notice. Failure to remove the Rejected Goods or the Contractor Property in accordance with the terms and conditions of the written notice shall mean, for itself and all Contractor Parties, that:

- (1) they have voluntarily, intentionally, unconditionally, unequivocally and absolutely abandoned and left unclaimed the Rejected Goods and Contractor Property and relinquished all ownership, title, licenses, rights, possession and interest of, in and to (collectively, “Title”) the Rejected Goods and Contractor Property with the specific and express intent of (A) terminating all of their Title to the Rejected Goods and Contractor Property, (B) vesting Title to the Rejected Goods and Contractor Property in the State of Connecticut and (C) not ever reclaiming Title or any future rights of any type in and to the Rejected Goods and Contractor Property;
- (2) there is no ignorance, inadvertence or unawareness to mitigate against the intent to abandon the Rejected Goods or Contractor Property;
- (3) they vest authority, without any further act required on their part or the State’s part, in the Client Agency and the State to use or dispose of the Rejected Goods and Contractor Property, in the State’s sole discretion, as if the Rejected Goods and Contractor Property were the State’s own property and in accordance with law, without incurring any liability or obligation to the Contractor or any other party;
- (4) if the State incurs any costs or expenses in connection with disposing of the Rejected Goods and Contractor Property, including, but not limited to, advertising, moving or storing the Rejected Goods and Contractor Property, auction and other activities, the State shall invoice the Contractor for all such cost and expenses and the Contractor shall reimburse the State no later than thirty (30) days after the date of invoice; and
- (5) they do remise, release and forever discharge the State and its employees, departments, commissions, boards, bureaus, agencies, instrumentalities or political subdivisions and their respective successors, heirs, executors and assigns (collectively, the “State and Its Agents”) of and from all Claims which they and their respective successors or assigns, jointly or severally, ever had, now have or will have against the

State and Its Agents arising from the use or disposition of the Rejected Goods and Contractor Property.

- (b) The Contractor shall secure from each Contractor Party, such document or instrument as necessary or appropriate as will vest in the Contractor plenary authority to bind the Contractor Parties to the full extent necessary or appropriate to give full effect to all of the terms and conditions of this section. The Contractor shall provide, no later than fifteen (15) days after receiving a request from the State, such information as the State may require to evidence, in the State's sole determination, compliance with this section.
6. Order and Delivery. The Contract shall bind the Contractor to furnish and deliver the Goods or Services in accordance with Exhibit A and at the prices set forth in Exhibit B. Subject to the sections in this Contract concerning Force Majeure, Termination and Open Market Purchases, the Contract shall bind the Client Agency to order the Goods or Services from the Contractor, and to pay for the accepted Goods or Services in accordance with Exhibit B.
7. Contract Amendments.
No amendment to or modification or other alteration of the Contract shall be valid or binding upon the parties unless made in writing, signed by the parties and, if applicable, approved by the Connecticut Attorney General.
8. Assignment. The Contractor shall not assign any of its rights or obligations under the Contract, voluntarily or otherwise, in any manner without the prior written consent of DAS. DAS may void any purported assignment in violation of this section and declare the Contractor in breach of Contract. Any Termination by DAS for a breach is without prejudice to DAS's or the State's rights or possible Claims.
9. Termination.
- (a) Notwithstanding any provisions in this Contract, DAS, through a duly authorized employee, may Terminate the Contract whenever DAS makes a written determination that such Termination is in the best interests of the State. DAS shall notify the Contractor in writing of Termination pursuant to this section, which notice shall specify the effective date of Termination and the extent to which the Contractor must complete its Performance under the Contract prior to such date.
- (b) Notwithstanding any provisions in this Contract, DAS, through a duly authorized employee, may, after making a written determination that the Contractor has breached the Contract, Terminate the Contract in accordance with the provisions in the Breach section of this Contract.
- (c) DAS shall send the notice of Termination via certified mail, return receipt requested, to the Contractor at the most current address which the Contractor has furnished to DAS for purposes of correspondence, or by hand delivery. Upon receiving the notice from DAS, the Contractor shall immediately discontinue all services affected in accordance with the notice, undertake all commercially reasonable efforts to mitigate any losses or damages, and deliver to the Client Agency all Records. The Records are deemed to be the property of the Client Agency and the Contractor shall deliver them to the Client Agency no later than thirty (30) days after the Termination of the Contract or fifteen (15) days after the Contractor receives a written request from either DAS or the Client Agency for the Records. The Contractor shall deliver those Records that exist in electronic, magnetic or other intangible form in a non-proprietary format, such as, but not limited to, ASCII or .TXT.

- (d) Upon receipt of a written notice of Termination from DAS, the Contractor shall cease operations as DAS directs in the notice, and take all actions that are necessary or appropriate, or that DAS may reasonably direct, for the protection, and preservation of the Goods and any other property. Except for any work which DAS directs the Contractor to Perform in the notice prior to the effective date of Termination, and except as otherwise provided in the notice, the Contractor shall terminate or conclude all existing subcontracts and purchase orders and shall not enter into any further subcontracts, purchase orders or commitments.
 - (e) The Client Agency shall, within forty-five (45) days of the effective date of Termination, reimburse the Contractor for its Performance rendered and accepted by the Client Agency in accordance with Exhibit A, in addition to all actual and reasonable costs incurred after Termination in completing those portions of the Performance which the notice required the Contractor to complete. However, the Contractor is not entitled to receive and the Client Agency is not obligated to tender to the Contractor any payments for anticipated or lost profits. Upon request by DAS or the Client Agency, as applicable, the Contractor shall assign to DAS or the Client Agency, or any replacement contractor which DAS or the Client Agency designates, all subcontracts, purchase orders and other commitments, deliver to DAS or the Client Agency all Records and other information pertaining to its Performance, and remove from State premises, whether leased or owned, all of Contractor's property, equipment, waste material and rubbish related to its Performance, all as DAS or the Client Agency may request.
 - (f) For breach or violation of any of the provisions in the section concerning Representations and Warranties, DAS may Terminate the Contract in accordance with its terms and revoke any consents to assignments given as if the assignments had never been requested or consented to, without liability to the Contractor or Contractor Parties or any third party.
 - (g) Upon Termination of the Contract, all rights and obligations shall be null and void, so that no party shall have any further rights or obligations to any other party, except with respect to the sections which survive Termination. All representations, warranties, agreements and rights of the parties under the Contract shall survive such Termination to the extent not otherwise limited in the Contract and without each one of them having to be specifically mentioned in the Contract.
 - (h) Termination of the Contract pursuant to this section shall not be deemed to be a breach of contract by DAS.
10. Cost Modifications. The parties may agree to a reduction in the cost of the Contract at any time during which the Contract is in effect. Without intending to impose a limitation on the nature of the reduction, the reduction may be to hourly, staffing or unit costs, the total cost of the Contract or the reduction may take such other form as the State deems to be necessary or appropriate.
11. Breach. If either party breaches the Contract in any respect, the non-breaching party shall provide written notice of such breach to the breaching party and afford the breaching party an opportunity to cure the breach within ten (10) days from the date that the breaching party receives such notice. Any other time provided for in the notice shall trump such ten (10) days. Such right to cure period shall be extended if the non-breaching party is satisfied that the breaching party is making a good faith effort to cure but the nature of the breach is such that it cannot be cured within the right to cure period. The notice may include an effective Contract Termination date if the breach is not cured by the stated date and, unless otherwise modified by the non-breaching party in writing prior to the Termination date, no

further action shall be required of any party to effect the Termination as of the stated date. If the notice does not set forth an effective Contract Termination date, then the non-breaching party may Terminate the Contract by giving the breaching party no less than twenty four (24) hours' prior written notice. If DAS believes that the Contractor has not performed according to the Contract, the Client Agency may withhold payment in whole or in part pending resolution of the Performance issue, provided that DAS notifies the Contractor in writing prior to the date that the payment would have been due in accordance with Exhibit B.

12. Waiver.

- (a) No waiver of any breach of the Contract shall be interpreted or deemed to be a waiver of any other or subsequent breach. All remedies afforded in the Contract shall be taken and construed as cumulative, that is, in addition to every other remedy provided in the Contract or at law or in equity.
- (b) A party's failure to insist on strict performance of any provision of the Contract shall only be deemed to be a waiver of rights and remedies concerning that specific instance of Performance and shall not be deemed to be a waiver of any subsequent rights, remedies or breach.

13. Open Market Purchases. Except to the extent that the Contractor is performing within a right to cure period, failure of the Contractor to Perform within the time specified in the Contract, or failure to replace rejected or substandard Goods or fulfill unperformed Services when so requested and as the Contract provides or allows, constitutes a breach of the Contract and as a remedy for such breach, such failure shall constitute authority for DAS, if it deems it to be necessary or appropriate in its sole discretion, to Terminate the Contract and/or to purchase on the open market, Goods or Services to replace those which have been rejected, not delivered, or not Performed. The Client Agency shall invoice the Contractor for all such purchases to the extent that they exceed the costs and expenses in Exhibit B and the Contractor shall pay the Client Agency's invoice immediately after receiving the invoice. If DAS does not Terminate the Contract, the Client Agency will deduct such open market purchases from the Contract quantities. However, if the Client Agency deems it to be in the best interest of the State, the Client Agency may accept and use the Goods or Services delivered which are substandard in quality, subject to an adjustment in price to be determined by the Client Agency.

14. Purchase Orders.

- (a) The Contract itself is not an authorization for the Contractor to ship Goods or begin Performance in any way. The Contractor may begin Performance only after it has received a duly issued purchase order against the Contract for Performance.
- (b) The Client Agency shall issue a purchase order against the Contract directly to the Contractor and to no other party.
- (c) All purchase orders shall be in written or electronic form, bear the Contract number (if any) and comply with all other State and Client Agency requirements, particularly the Client Agency's requirements concerning procurement. Purchase orders issued in compliance with such requirements shall be deemed to be duly issued.

- (d) A Contractor making delivery without a duly issued purchase order in accordance with this section does so at the Contractor's own risk.
- (e) The Client Agency may, in its sole discretion, deliver to the Contractor any or all duly issued purchase orders via electronic means only, such that the Client Agency shall not have any additional obligation to deliver to the Contractor a "hard copy" of the purchase order or a copy bearing any hand-written signature or other "original" marking.

15. Indemnification.

- (a) The Contractor shall indemnify, defend and hold harmless the State and its officers, representatives, agents, servants, employees, successors and assigns from and against any and all (1) Claims arising, directly or indirectly, in connection with the Contract, including the acts of commission or omission (collectively, the "Acts") of the Contractor or Contractor Parties; and (2) liabilities, damages, losses, costs and expenses, including but not limited to, attorneys' and other professionals' fees, arising, directly or indirectly, in connection with Claims, Acts or the Contract. The Contractor shall use counsel reasonably acceptable to the State in carrying out its obligations under this section. The Contractor's obligations under this section to indemnify, defend and hold harmless against Claims includes Claims concerning confidentiality of any part of or all of the Contractor's bid, proposal or any Records, any intellectual property rights, other proprietary rights of any person or entity, copyrighted or uncopyrighted compositions, secret processes, patented or unpatented inventions, articles or appliances furnished or used in the Performance.
- (b) The Contractor shall not be responsible for indemnifying or holding the State harmless from any liability arising due to the negligence of the State or any other person or entity acting under the direct control or supervision of the State.
- (c) The Contractor shall reimburse the State for any and all damages to the real or personal property of the State caused by the Acts of the Contractor or any Contractor Parties. The State shall give the Contractor reasonable notice of any such Claims.
- (d) The Contractor's duties under this section shall remain fully in effect and binding in accordance with the terms and conditions of the Contract, without being lessened or compromised in any way, even where the Contractor is alleged or is found to have merely contributed in part to the Acts giving rise to the Claims and/or where the State is alleged or is found to have contributed to the Acts giving rise to the Claims.
- (e) The Contractor shall carry and maintain at all times during the term of the Contract, and during the time that any provisions survive the term of the Contract, sufficient general liability insurance to satisfy its obligations under this Contract. The Contractor shall cause the State to be named as an additional insured on the policy and shall provide (1) a certificate of insurance, (2) the declaration page and (3) the additional insured endorsement to the policy to the Client Agency prior to the Effective Date of the Contract evidencing that the State is an additional insured. The Contractor shall not begin Performance until the delivery of these 3 documents to the Client Agency. State shall be entitled to recover under the insurance policy even if a body of competent jurisdiction determines that State is contributorily negligent.
- (f) This section shall survive the Termination of the Contract and shall not be limited by reason of any insurance coverage.

16. Forum and Choice of Law. The parties deem the Contract to have been made in the City of Hartford, State of Connecticut. Both parties agree that it is fair and reasonable for the

Contract # 14PSX0059

Contract Document

Prev. Rev. 1/17/14

validity and construction of the Contract to be, and it shall be, governed by the laws and court decisions of the State of Connecticut, without giving effect to its principles of conflicts of laws. To the extent that any immunities provided by Federal law or the laws of the State of Connecticut do not bar an action against the State, and to the extent that these courts are courts of competent jurisdiction, for the purpose of venue, the complaint shall be made returnable to the Judicial District of Hartford only or shall be brought in the United States District Court for the District of Connecticut only, and shall not be transferred to any other court, provided, however, that nothing here constitutes a waiver or compromise of the sovereign immunity of the State of Connecticut. The Contractor waives any objection which it may now have or will have to the laying of venue of any Claims in any forum and further irrevocably submits to such jurisdiction in any suit, action or proceeding.

17. Contractor Guaranties. Contractor shall:

- (a) Perform fully under the Contract;
- (b) Guarantee the Goods or Services against defective material or workmanship and to repair any damage or marring occasioned in transit or, at the Client Agency's option, replace them;
- (c) Furnish adequate protection from damage for all work and to repair damage of any kind, for which its workers are responsible, to the premises, Goods, the Contractor's work or that of Contractor Parties;
- (d) With respect to the provision of Services, pay for all permits, licenses and fees and give all required or appropriate notices;
- (e) Adhere to all Contractual provisions ensuring the confidentiality of Records that the Contractor has access to and are exempt from disclosure under the State's Freedom of Information Act or other applicable law; and
- (f) Neither disclaim, exclude nor modify the implied warranties of fitness for a particular purpose or of merchantability.

18. Implied Warranties. DAS does not disclaim, exclude or modify the implied warranty of fitness for a particular purpose or the warranty of merchantability.

19. Goods, Standards and Appurtenances. Any Goods delivered must be standard new Goods, latest model, except as otherwise specifically stated in the Contract. Remanufactured, refurbished or reconditioned equipment may be accepted but only to the extent allowed under the Contract. Where the Contract does not specifically list or describe any part or nominal appurtenances of equipment for the Goods, it shall be understood that the Contractor shall deliver such parts and appurtenances as are usually provided with the manufacturer's stock model.

20. Delivery.

- (a) Delivery shall be made as ordered and in accordance with the Contract. Unless otherwise specified in the Contract, delivery shall be to a loading dock or receiving platform. The Contractor or Contractor's shipping designee shall be responsible for removal of Goods from the carrier and placement on the Client Agency loading dock or receiving platform. The receiving personnel of the Client Agency are not required to assist in this process. The decision of DAS as to reasonable compliance with delivery terms shall be final and binding. The burden of proof of proper receipt of the order shall rest with the Contractor.

Prev. Rev. 1/17/14

- (b) In order for the time of delivery to be extended, the Client Agency must first approve a request for extension from the time specified in the Contract, such extension applying only to the particular item or shipment.
 - (c) Goods shall be securely and properly packed for shipment, according to accepted standard commercial practice, without extra charge for packing cases, baling or sacks. The containers shall remain the property of the Client Agency unless otherwise stated in the Contract.
 - (d) All risk of loss and damage to the Goods transfers to the Client Agency upon Title vesting in the Client Agency.
21. Goods Inspection. The Client Agency shall determine the manner and prescribe the inspection of all Goods and the tests of all samples submitted to determine whether they comply with all of the specifications in the Contract. If any Goods fail in any way to meet the specifications in the Contract, the Client Agency may, in its sole discretion, either reject it and owe nothing or accept it and pay for it on an adjusted price basis, depending on the degree to which the Goods meet the specifications. Any decision pertaining to any such failure or rejection shall be final and binding.
22. Emergency Standby for Goods and/or Services. If any Federal or State official, having authority to do so, declares an emergency or the occurrence of a natural disaster within the State of Connecticut, DAS and the Client Agency may request the Goods and Services on an expedited and prioritized basis. Upon receipt of such a request the Contractor shall make all necessary and appropriate commercially reasonable efforts to reallocate its staffing and other resources in order to give primary preference to Performing this Contract ahead of or prior to fulfilling, in whole or in part, any other contractual obligations that the Contractor may have. The Contractor is not obligated to make those efforts to Perform on an expedited and prioritized basis in accordance with this paragraph if doing so will make the Contractor materially breach any other contractual obligations that the Contractor may have. - (b) The Contractor shall maintain, and shall require each of the Contractor Parties to maintain, accurate and complete Records. The Contractor shall make all of its and the Contractor Parties' Records available at all reasonable hours for audit and inspection by the State and its agents.
- (c) The State shall make all requests for any audit or inspection in writing and shall provide the Contractor with at least twenty-four (24) hours' notice prior to the requested audit and inspection date. If the State suspects fraud or other abuse, or in the event of an emergency, the State is not obligated to provide any prior notice.
- (d) All audits and inspections shall be at the State's expense.
- (e) The Contractor shall keep and preserve or cause to be kept and preserved all of its and Contractor Parties' Records until three (3) years after the latter of (i) final payment under this Contract, or (ii) the expiration or earlier termination of this Contract, as the same may be modified for any reason. 45. Working and Labor Synergies. The Contractor shall be responsible for maintaining a tranquil working relationship between the Contractor work force, the Contractor Parties and their work force, State employees, and any other contractors present at the work site. The Contractor shall quickly resolve all labor disputes which result from the Contractor's or Contractor Parties' presence at the work site, or other action under their control. Labor disputes shall not be deemed to be sufficient cause to allow the Contractor to make any claim for additional compensation for cost, expenses or any other loss or damage, nor shall those disputes be deemed to be sufficient reason to relieve the Contractor from any of its obligations under the Contract.
46. Contractor Responsibility.
- (a) The Contractor shall be responsible for the entire Performance under the Contract regardless of whether the Contractor itself performs. The Contractor shall be the sole point of contact concerning the management of the Contract, including Performance and payment issues. The Contractor is solely and completely responsible for adherence by the Contractor Parties to all applicable provisions of the Contract.
 - (b) The Contractor shall exercise all reasonable care to avoid damage to the State's property or to property being made ready for the State's use, and to all property adjacent to any work site. The Contractor shall promptly report any damage, regardless of cause, to the State.
47. Severability. If any term or provision of the Contract or its application to any person, entity or circumstance shall, to any extent, be held to be invalid or unenforceable, the remainder of the Contract or the application of such term or provision shall not be affected as to persons, entities or circumstances other than those as to whom or to which it is held to be invalid or unenforceable. Each remaining term and provision of the Contract shall be valid and enforced to the fullest extent possible by law.
48. Confidential Information. The State will afford due regard to the Contractor's request for the protection of proprietary or confidential information which the State receives. However, all materials associated with the Proposal and the Contract are subject to the terms of the Connecticut Freedom of Information Act ("FOIA") and all corresponding rules, regulations and interpretations. In making such a request, the Contractor may not merely state generally that the materials are proprietary or confidential in nature and not, therefore, subject to release to third parties. Those particular sentences, paragraphs, pages or sections that the Contractor believes are exempt from disclosure under the FOIA must be specifically identified as such. Convincing explanation and rationale sufficient to justify each exemption consistent with the FOIA must accompany the request. The rationale and explanation must be stated in terms of the prospective harm to the competitive position of the Contractor that would result if the identified material were to be released and the reasons why the materials are legally exempt from release pursuant to the FOIA. To the extent that any other provision or part of the Contract, especially including the Proposal, the Records and the specifications, conflicts or is in any way inconsistent with this section, this section controls and shall apply and the conflicting provision or part shall not be given effect. If the Contractor indicates that certain documentation is submitted in confidence, by specifically and clearly marking said documentation as CONFIDENTIAL, DAS will endeavor to keep said information confidential to the extent permitted by law. DAS, however, has no obligation to initiate, prosecute or defend any legal proceeding or to seek a protective order or other similar relief to prevent disclosure of any information that is sought pursuant to a FOIA request. The Contractor shall have the burden of establishing the availability of any FOIA exemption in any proceeding where it is an issue. In no event shall DAS or the State have any liability for the disclosure of any documents or information in its possession which

the State or DAS believes are required to be disclosed pursuant to the FOIA or other requirements of law.

49. References to Statutes, Public Acts, Regulations, Codes and Executive Orders. All references in this Contract to any statute, public act, regulation, code or executive order shall mean such statute, public act, regulation, code or executive order, respectively, as it has been amended, replaced or superseded at any time. Notwithstanding any language in this Contract that relates to such statute, public act, regulation, code or executive order, and notwithstanding a lack of a formal amendment to this Contract, this Contract shall always be read and interpreted as if it contained the most current and applicable wording and requirements of such statute, public act, regulation, code or executive order as if their most current language had been used in and requirements incorporated into this Contract at the time of its execution.
50. Cross-Default.
- (a) If the Contractor or Contractor Parties breach, default or in any way fail to Perform satisfactorily under the Contract, then DAS may, in its sole discretion, without more and without any action whatsoever required of the State, treat any such event as a breach, default or failure to Perform under any or all other agreements or arrangements (“Other Agreements”) that the Contractor or Contractor Parties have with DAS. Accordingly, DAS may then exercise at its sole option any and all of its rights or remedies provided for in the Contract or Other Agreements, either selectively or collectively and without such election being deemed to prejudice any rights or remedies of DAS, as if the Contractor or Contractor Parties had suffered a breach, default or failure to perform under the Other Agreements.
- (b) If the Contractor or Contractor Parties breach, default or in any way fail to Perform satisfactorily under any or all Other Agreements with DAS or the State, then DAS may, in its sole discretion, without more and without any action whatsoever required of the State, treat any such event as a breach, default or failure to Perform under the Contract. Accordingly, the State may then exercise at its sole option any and all of its rights or remedies provided for in the Other Agreements or the Contract, either selectively or collectively and without such election being deemed to prejudice any rights or remedies of DAS or the State, as if the Contractor or Contractor Parties had suffered a breach, default or failure to Perform under the Contract.
51. Disclosure of Records. This Contract may be subject to the provisions of section 1-218 of the Connecticut General Statutes. In accordance with this statute, each contract in excess of two million five hundred thousand dollars between a public agency and a person for the performance of a governmental function shall (a) provide that the public agency is entitled to receive a copy of records and files related to the performance of the governmental function, and (b) indicate that such records and files are subject to FOIA and may be disclosed by the public agency pursuant to FOIA. No request to inspect or copy such records or files shall be valid unless the request is made to the public agency in accordance with FOIA. Any complaint by a person who is denied the right to inspect or copy such records or files shall be brought to the Freedom of Information Commission in accordance with the provisions of sections 1-205 and 1-206 of the Connecticut General Statutes.
52. Summary of State Ethics Laws. Pursuant to the requirements of section 1-101qq of the Connecticut General Statutes, the summary of State ethics laws developed by the State Ethics Commission pursuant to section 1-81b of the Connecticut General Statutes is incorporated by reference into and made a part of the Contract as if the summary had been fully set forth in the Contract.

During a disaster debris clean-up effort, the State will operate under a unified command maintained by the State's Interagency Debris Management Task Force (IDMTF) to ensure that debris removal operations are efficient, effective, and eligible for FEMA, Public Assistance (PA) or grant funding.

Any capitalized term not otherwise defined herein will have the meaning ascribed to it in the Contract form.

- A. **Connecticut's approach to debris management:** The State has prepared two primary documents that speak to natural disasters and related response and operations: (1) the *State Natural Disaster Plan, 2009* and (2) the *State Disaster Debris Management Plan, 2013* which is an annex to the *State Natural Disaster Plan*. Strategies for the cleanup of debris are presented in both of these plans. Proposers are expected to be familiar with these documents and have a thorough understanding of each. These plans can be obtained by clicking on: <http://www.ct.gov/demhs> and www.ct.gov/deep/disasterdebrismanagement

The process by which debris is to be managed is as follows:

1. Disaster debris will be picked up from curbside (pickup site location, street address or nearest intersection) and be transported to a temporary Debris Management Site (DMS) where the debris will be segregated, processed, reduced and sorted by debris type. Such debris will then be transported to a final disposal facility or recycling facility within the State or outside of the State.

B. **Connecticut's debris management strategy:**

1. Divert as much material from disposal as possible through recycling, composting and other legitimate diversion options;
2. Utilize volume reduction techniques to improve debris management efficiencies and minimize impacts on landfill capacities;
3. Use Connecticut's in-state disposal capacity for disposal of disaster debris as efficiently as possible;
4. Allow for temporary tonnage increases at permitted in-state solid waste facilities on an emergency basis;
5. Rely on permitted transfer stations to transfer waste that cannot be re-used, recycled or composted at permitted waste handling facilities;
6. Rely on permitted volume reduction facilities to reduce and transfer waste that cannot be diverted from disposal to permitted waste handling facilities;
7. Consider alternative technologies for managing portions of the debris waste stream (i.e., biomass facilities); and
8. Use State of Connecticut Department of Energy and Environmental Protection (CTDEEP) approved DMS for processing debris for recycling and disposal.

Note: Most of the Construction and Demolition Debris (C&D Debris) and oversized municipal solid waste that is generated in Connecticut is disposed of at out-of-State facilities due to limited in State disposal capacity. It is anticipated that much of the C&D Debris that will be generated by a disaster would be transported out-of-State for final disposal or to a recycling facility. In contrast, all of the green waste and vegetative debris generated by a disaster is likely to remain in State.

- **LOAD TICKET: FROM CURBSIDE INITIAL PICKUP (SCENARIO #1)** – Records the loading and transport of debris from the public right-of-way to the DMS or directly to final recycling facilities or final disposal facilities, both in-State and or out-of-State.
- **LOAD TICKET: FROM DMS (SCENARIO #2)** – Records the loading and transport of processed and segregated debris from a DMS to recycling facilities or final disposal facilities.

- **Scenario #1. From curbside initial pickup: Initial loading of waste debris from the public right-of-way to the DMS or directly to final recycling facilities or disposal facilities.**
 - (1) **From curbside or initial loading site:** the first part of the ticket shall be completed at the initiation of each load in the public right-of-way, signed by the field debris monitor and will be retained by the field debris monitor. The field debris monitor is required to keep and turn in the first of the five-part ticket at the end of each day to their field debris supervisor.  - (2) **To DMS and receipt of load:** the Debris Removal Contract vendor's driver will hand the remaining four parts of the load ticket to the DMS monitor at the inspection station or DMS. The DMS monitor will inspect the load, record the appropriate volume or weight, record the appropriate haul distance based on transport mileage, and initial the load ticket. The second part of the five-part load ticket will remain with the DMS monitor. The DMS monitor shall turn in the second part of the five-part ticket at the end of each day to their supervisor. The other remaining three parts of the five-part ticket shall be given to the Debris Removal Contract vendor's driver which will then be turned in to the Debris Removal Contract vendor's representative.
 - (3) **To final disposal facility or recycling facility, both in-state and out-of-state, receipt of load:** The Debris Removal Contract vendor's driver will hand the remaining four parts of the load ticket to a duly authorized representative of the solid waste disposal facility. The authorized representative at the solid waste disposal facility will inspect the load, record the appropriate volume or weight, record the appropriate haul distance based on transport mileage, and

initial the ticket and shall keep the second and third parts of the load ticket. One copy will remain with the facility and the other copy will be forwarded to the debris monitoring project manager. The driver will retain the fourth and fifth copies of the load ticket that will be turned in to their respective Debris Removal Contract vendor representative.

▪ **Scenario #2. Loading of segregated and/or processed waste materials at the DMS for transport to the final recycling facility or final disposal facilities.**

(1) **From DMS loading site:** The first part of the load ticket shall be completed at the DMS, signed by the DMS monitor, and will be retained by the DMS monitor. The DMS monitor is required to keep and turn in the first of the five-part ticket at the end of each day to their supervisor. The DMS monitor shall give the remaining four parts of that load ticket to the Debris Removal Contract vendor's driver.

(2) **To final recycling facility and disposal facilities:** The Debris Removal Contract vendor's driver will hand the remaining four copies of the load ticket to the duly authorized representative of the final recycling or disposal facility. The authorized representative of the facility will inspect the load, record the appropriate volume or weight, record the appropriate haul distance based on transport mileage, and initial the ticket. Part two and three of the five-part load ticket shall remain with the authorized representative of the final disposal site. One will remain with the facility the other will be forwarded by the receiving facility to the debris monitoring project manager. The other remaining parts of the load ticket, four and five, shall be given to the Debris Removal Contract vendor's driver, to be turned in to their respective Debris Removal Contract vendor representative.

ATTACHMENT A6: AUTOMATED DEBRIS MANAGEMENT SYSTEM (ADMS) (EXAMPLE)

The purpose of this section is to provide specifications for an automated debris management system to be utilized in disaster debris management missions. The ADMS must meet the following performance characteristics:

- a. The system must generate an electronic load tickets at the point of debris loading into the transport container. Paper tickets are optional. At a minimum, the system must produce a load ticket must exhibiting the following characteristics:
 - Allow creation of point of origin load data only when position is known and credentials have been authenticated
 - Automatically record date and time and other relevant point of origin data
 - Systems writes point of origin load data using encrypted storage algorithms
 - Records Right Of Entry or work order number
 - Documents ticket/tower personnel credentials with point of origin load data
 - Acknowledge successful data capture
 - Record digital images of debris, location, and / or other images selected by user.
- b. Duplicate databases for internet and government use
- c. Only two elements of the traditional debris paper load ticket (debris type and load call) are manually entered.
- d. Uses GPS & GIS technologies to automatically determine the most direct haul route from loading site to disposal site and records mileage.
- e. Evaluation of daily event status, production information, and performance information using web-based reporting, off the shelf software, and GIS tools.
- f. Coordination of contractor invoices, FEMA documentation and applicant payment processes enabled thru an integrated database management system.
- g. The ticket/tower applications at a minimum must include:
 - Ticket/tower monitor electronic registration
 - Generate, document, track, and manage unique encrypted identification data for employed personnel
 - Link designated ticket/tower personnel roles to a specific mission
 - The ability to edit ticket/tower personnel roles i.e., create, update and delete
 - Assign and track equipment used in debris hauling and reduction
 - Store ticket/tower personnel contact information relative to the mission
 - Track and Manage ticket/tower personnel role and status
 - Reject invalid ticket/tower personnel credentials
 - Reject invalid certification credentials
- h. Truck certification is used to register authorized debris hauling vehicles and equipment. As a minimum, the following must be included:

- A means of electronically registering authorized debris contractor vehicles and equipment
 - Link electronic registration to digital images
 - Identify mission and governmental entity
 - Document and record unique identification data for contractor vehicles and equipment
 - Utilize uniform measurements e.g. feet and inches
 - Capture vehicle volume
 - Utilize industry standard equations for all volume calculations
 - Capture drivers and certification team member unique identification number
 - Recertify vehicles
 - Recertified vehicles must be recorded in an audit table
 - Certification data must be associated to authorized system user
 - Reject vehicles which are not associated with current event and applicant
 - Capture vehicle audit records
 - Create a printed certification record
 - Administrative reporting capabilities
- i. Completed ROW, ROE and Per-unit point of origin transactions must be received at the approved disposal site. At a minimum, the disposal site management application must provide the capability to:
- Accept site configuration data at the beginning of each work day
 - Dynamically configure receiving application based on site configuration data
 - Display certification data and photo for ticket/tower personnel to perform a field audit of truck/trailer to assure they matches certification and placard number
 - Designate debris type
 - Record debris volume (based on unit of measure for the contract task order)
 - Identify original load data and create hard copy
 - Create load data record in internal storage
 - Create backup copy of internal storage
 - Continuously calculate and present real-time disposal site statistics
 - Re-print load ticket data
 - Preserve in its original state, then transmit daily transaction data
 - Associate ticket/tower personnel credentials with each received load
- j. Perform administrative duties, verify vehicle audit information, display real-time collection volumes, and review ticket/tower personnel GPS audit logs. At a minimum, the field administrative applications must provide the capability to:
- Change ticket/tower personnel identification roles and responsibilities
 - Review total CY counter value
 - Audit vehicle certification data
 - Validate/Invalidate equipment and personnel

- Reinitiate security sequence for ticket/tower personnel
 - In tabular format, display the results of ticket/tower GPS audit files by limiting access to the internet data or by the government secure server
- k. Transactional data must be summarized, validated, presented and audited to provide an overall status of mission performance. The Data Consolidation applications must facilitate billing, error reporting, performance tracking and graphical data preparation. At a minimum, the Data Consolidation tools must provide the capability to:
- Accept transactional data sets from multiple debris location systems
 - Recognize multiple mission/applicant configurations
 - Grant access to authorized authenticated users or processes
 - Contain a master record of:
 - Roles and responsibilities
 - Ticket/tower personnel credentials and other data
 - Certification credentials and other data
 - Mission data
 - Applicant data
 - Geospatial data
 - * Street centerlines
 - * County outlines
 - * Population and demographic
 - * Elevation
 - * Wetlands delineation
 - * Historic and Environmentally Sensitive areas
 - * Debris work zones
 - * Parcel data
 - * Land use
 - * FEMA flood zones
 - Thematic mapping techniques to distinguish different data by color and/or symbol
 - Identify data attributes for a single point of data
 - Select one or many points of data
 - Calculate operational efficiency statistics such as:
 - Trip turnaround time
 - Trip distance to disposal site (straight line projection)
 - Average container fill percentage
 - Average tower manager load call
 - Load call trend data e.g., by tower managers, contractor, sub contractor, driver, etc.
 - Multiple data selections generate tabular data reports

- Filter mechanisms to highlight geospatial data
- Role based security
- Prevent distributed data from being reprocessed for billing purposes
- Identify billing data sets based on parameters such as:
 - Time/Date
 - Contractor/Subcontractor
 - Debris type
 - Debris disposal method (haul-in, reduction, open burn, incineration, haul-out, leave in place, etc.)
 - Haul distance
- Prevent modification to original data by unauthorized or unauthenticated users
