The authorized user, when purchasing from OGS contracts, should hold the contractor accountable for contract compliance and meeting the contract terms, conditions, specifications, and other requirements. Also, in recognition of market fluctuations over time, authorized users are encouraged to seek improved pricing whenever possible.

Authorized users have the responsibility to document purchases, particularly when using OGS multiple award contracts for the same or similar product(s)/service(s), which should include:

- a statement of need and associated requirements,
- a summary of the contract alternatives considered for the purchase,
- the reason(s) supporting the resulting purchase (e.g., show the basis for the selection among multiple contracts at the time of purchase was the most practical and economical alternative and was in the best interests of the State).

The New York State Office of General Services Procurement Services has established statewide multiple award contracts to be used by New York State, New York State Authorized Users, other Participating States and their eligible entities that are named herein or have signed a Participating Addendum. Additional States not named within this Award may join at a later time by signing a Participating Addendum, and may have additional terms and conditions not outlined herein. The commodities Contracts awarded as a result of the IFB will be centralized Contracts for use by New York State Agencies and other Authorized Users (see Section 4.11 – Non-State Agencies Participation in Centralized Contracts).

The resultant contracts will be for a five (5) year period beginning on June 1, 2015 for Level One Awardees. Level Two Awardees may have been awarded on or after June 1, 2015. All awarded contracts will expire on May 31, 2020.

Participating States as of the date of the IFB issuance: New York State - Lead State- (As "Lead State" all NYS laws, regulations and requirements take precedence).

Other participating States: Alaska, Arkansas, California, Connecticut, Delaware, Commonwealth of Massachusetts, Commonwealth of Virginia, Maine, South Dakota, Vermont.

1.1 OVERVIEW AND SCOPE

The purpose of the Award and the resultant Contracts is to provide Authorized Users (including other participating states) with a means of acquiring various types of Hazardous Incident Response Equipment as per, but not limited to, the **Department of Homeland Security (DHS) Authorized Equipment List (AEL)**. Products submitted must be within the general scope of a specific AEL category.

Multiple Contracts have been awarded to responsive and responsible Bidders who met the terms and conditions of the IFB, and whose product offerings met the scope of the IFB.

The following Authorized Equipment, as per the categories and specifications listed in the Department of Homeland Security Authorized Equipment List (DHS AEL), and described in the federal grant requirements, was requested. See Section 6.0 Standards for reference:

1. Personal Protective Equipment (PPE)
2. Explosive Device Mitigation and Remediation Equipment

4. Information Technology (Equipment Only; Example: Simulators such as Portable Meteorological Devices)
5. ~~Cyber Security Enhancement Equipment~~ (Category excluded from the IFB)
6. Interoperable Communications Equipment (Limited to Satellite Phones, Satellite Communication & Accessories)

19. CBRNE Logistical Support Equipment
20. Intervention Equipment
21. Other Authorized Equipment (Limited to MRE's, Water; Maintenance, Calibration, & Training for Equipment only)

In addition to products on the AEL which are eligible for federal funding, contractor price lists may include products not meeting federal funding requirements, provided such products are within the general scope of a specific AEL category.

1.2 ESTIMATED QUANTITIES

The Contracts resulting from the IFB are Indefinite Delivery, Indefinite Quantity (IDIQ) Contracts. Any quantities or dollar values listed are estimates. Numerous factors could cause the actual volume of product purchased under the Contracts to vary substantially from estimates in the IFB. Such factors include, but are not limited to, the following:

- Such Contracts will be nonexclusive Contracts;
- There is no guarantee of volume to be purchased in any category group, and there is no guarantee that demand will continue in any manner consistent with previous purchases;
- The individual value of each Contract is indeterminate and will depend upon actual Authorized User or other non-New York State entity user demand and actual quantities ordered during the Contract period;
- The State reserves the right to terminate any Contract for cause or convenience prior to the end of the term pursuant to the terms and conditions of the Contract.

In Procurement Services experience, depending on the price of a particular item, the actual volume of purchases for that item could be substantially in excess of, or substantially below, estimated volumes. Specifically, if actual contract pricing is lower than anticipated pricing, actual quantities purchased could be substantially greater than the estimates; conversely, if actual contract pricing is higher than anticipated pricing, actual quantities purchased could be substantially lower than the estimates. By submitting its bid, Bidder acknowledged the foregoing and agreed that actual good faith purchasing volumes during the term of the resulting Contracts could vary substantially from any estimates provided in the IFB.

1.3 DETAILED SCOPE

The IFB consisted of eighteen (18) specified category types. Each category and its associated allowable items and specification is outlined in the **Department of Homeland Security (DHS) Authorized Equipment List (AEL)**. Contracts for Hazardous Incident Response Equipment include, but are not necessarily limited to, the item sub-categories listed as authorized equipment. Submissions for any equipment not specifically listed in the DHS Authorized Equipment List categories included in the IFB were evaluated on a case by case basis as to eligibility for inclusion on the NYS HIRE contract. OGS reserves the right to exclude any item(s) deemed to be out of scope of the IFB.

All items submitted must be within the scope of the IFB. Offerings found to be out of scope will be rejected at the sole discretion of OGS Procurement Services.

Bidders able to supply items in nine (9) of the eighteen (18) approved categories listed (see DHS AEL) have been awarded as **Level One Contractors**. Bidders were required to show \$300,000 in total sales to governmental entities during the past year (2014) for items related to the product categories for which they submitted a bid.

Bidders that did not qualify for Level One award but were able to show \$300,000 in sales to governmental entities for this kind of equipment are considered as **Level Two Contractors** and may be awarded in a second group of awards. This was meant to take into account those smaller distributors or manufacturers that specialize in certain commodity lines.

1.5 SUMMARY OF POLICY AND PROHIBITIONS ON PROCUREMENT LOBBYING

Pursuant to State Finance Law §§139-j and 139-k, the solicitation included and imposed certain restrictions on communications between OGS and an Offerer/Bidder during the procurement process. Offerers/Bidders were restricted from making contacts from the earliest notice of intent to solicit offers/bids through final award and approval of the Procurement Contract by OGS and, if applicable, the Office of the State Comptroller (“restricted period”) to other than designated staff unless it is a contact that was included among certain statutory exceptions set forth in State Finance Law §139-j (3) (a). Designated staff, as of the date hereof, were identified on the first page of the solicitation. OGS employees were required to obtain certain information when contacted during the restricted period and to make a determination of the responsibility of the Offerer/Bidder pursuant to these two statutes. Certain findings of non-responsibility could have resulted in rejection for contract award, and in the event of two findings within a four-year period, the Offerer/Bidder would have been debarred from obtaining governmental Procurement Contracts. Further information about these requirements can be found on the OGS website:

http://www.ogs.ny.gov/aboutOgs/regulations/defaultSFL_139j-k.asp

1.7.3 Additional Offerings

The Contract allows for the inclusion of services such as maintenance, calibration and training for products listed with each individual Contractor's pricelist.

NYS OGS Procurement Services reserves the right to delete, before or after award, any of the products included in the Bidder's/Contractor's offerings under the IFB and any resulting contract. 2.2 DISPUTE RESOLUTION POLICY

a. Informal Dispute Resolution Process

1. It is the policy of OGS to provide vendors with an opportunity to administratively resolve disputes, complaints or inquiries related to OGS bid solicitations, contract awards or contract administration. If the Parties are not able to resolve their dispute between themselves as set forth below, OGS encourages vendors to seek resolution of disputes through consultation with OGS staff. Such consultation is voluntary. All such matters will be accorded impartial and timely consideration. Interested parties may also file formal written disputes.
2. In the event there is a dispute or controversy under this Centralized Contract, the Contractor, OGS and Authorized User agree to exercise their best efforts to resolve the dispute as soon as possible. The Contractor, OGS and Authorized User shall, without delay, continue to perform their respective obligations under this Centralized Contract which are not affected by the dispute. Primary responsibility for resolving any dispute arising under this Centralized Contract shall rest with the Authorized User's Contractor Coordinators and the Contractor's Account Executive and the State & Local Government Regional General Manager.

In the event the Contractor has any disputes with the Authorized User, the Contractor shall so notify the Authorized User in writing. If either party notifies the other of such dispute or controversy, the other party shall then make good faith efforts to solve the problem or settle the dispute amicably, including meeting with the party's representatives to attempt diligently to reach a satisfactory result.
4. If negotiation between such persons fails to resolve any such dispute to the satisfaction of the parties within fourteen (14) business days or as otherwise agreed to by the Contractor and Authorized User, of such notice, then the matter shall be submitted to the State's Contract Administrator and the Contractor's senior officer of the rank of Vice President or higher as its representative. Such representatives shall meet in person and shall attempt in good faith to resolve the dispute within the next fourteen (14) business

days or as otherwise agreed to by the parties. This meeting must be held before either party may seek any other method of dispute resolution, including judicial or governmental resolutions. Notwithstanding the foregoing, this section shall not be construed to prevent either party from seeking and obtaining temporary equitable remedies, including injunctive relief.

5. The Contractor shall extend the dispute resolution period for so long as the Authorized User continues to make reasonable efforts to cure the breach, except with respect to disputes about the breach of payment of fees or infringement of its or its licensors' intellectual property rights.

The post-award debriefing should be requested in writing within 30 days of posting of the Contract award on the OGS website.

SECTION 3. METHOD OF AWARD/EVALUATION PROCESS

3.1 METHOD OF AWARD

Awards were made Statewide by the NYS Office of General Services (NYS OGS). Because of the varied nature of products in each catalog and/or pricelist, awards were made to more than one vendor. Awards were made only to Bidders whose schedule of prices indicates that equipment will be delivered at a reasonable price as determined by the NYS OGS. "Reasonable prices" may have been determined by reviewing discounts and net prices offered to GSA, Veteran's Administration, prices on any previously awarded NYS contract, pricing offered by other Bidders for this solicitation and contracts with other state or government entities, etc.

Bidders able to supply items in nine (9) of the eighteen (18) approved categories listed herein (see DHS AEL) have been awarded as **Level One Contractors**. Bidders must have shown \$300,000 in sales to governmental entities during the past year for items related to the product categories for which they were submitting a bid.

Bidders that did not qualify for Level One award but were able to show \$300,000 in sales to governmental entities for this kind of equipment are considered as **Level Two Contractors** and may be awarded in a second group of awards. This was meant to take into account those smaller distributors or manufacturers that specialize in certain commodity lines.

Level One bid submissions may have been reviewed and subsequent contracts awarded prior to review and award of Level Two vendors.

Level Two bid submissions may be reviewed and subsequent contracts awarded in a second group of awards.

Awards are made to established manufacturers or established distributors taking into consideration delivery offered, past performance, and all product information available. The basis for selection among multiple suppliers at the time of purchase shall be the most practical and economical alternative and shall be in the best interests of the State.

The State reserves the right to reject a bid or accept adjustments when prices are deemed to be excessive or unbalanced, or when it does not guarantee delivery of product in accordance with the "DELIVERY" clause. The State reserves the right to negotiate better pricing with all qualified Bidders having been considered for award.

Bidders may have offered contract pricing for New York State OGS contracts currently held by their suppliers as part of their product line submittal. Bidders that currently held New York State OGS contracts were required to offer the same as, or better than pricing listed in such contracts.

Bidders that held a contract other than a NYS OGS contract at time of bid submission, whereas they are offering the same product under the IFB, were required to offer the same as, or better than pricing listed in such contracts.

The commissioner reserves the right to evaluate and/or reject any and all bids, in whole or in part and to waive technicalities, irregularities and omissions if in his or her considered judgment, the best interests of the State would have been served. In the event satisfactory bids fully in accord with the bid documents were not received, the Commissioner reserves the right to consider late or non-conforming bids as stipulated in "Late Bid" clause of Appendix B.

The Office of General Services New York State Procurement Services reserves the right to hold Periodic Recruitment during the contract period if it is deemed to be within the best interest of the State. Vendors shall be required to submit the original bid document which may include an addendum containing additional applicable statutory requirements currently in effect at the time of the new bid solicitation. Bids shall be evaluated under similar terms and conditions. Once awarded a contract, a vendor may not resubmit a bid for future consideration until the new Invitation for Bids is issued. Notice of such Periodic Recruitment will be posted in the NYS Contract Reporter for a minimum of 15 business days prior to the submission due date.

3.2 ELECTRONIC BID OPENING RESULTS

OGS posts bid prices on the OGS website. The website makes available bid tabulations (i.e., photocopies of price pages or spreadsheets) received by OGS for scheduled bid openings. For this solicitation, only a listing of Bidder's was made available online after the bid opening; pricelists were not posted. Due to the large volume of submissions anticipated in response to this solicitation, there was no public observation of the Submission opening process.

The Bid Opening Results Page is available at: <http://www.ogs.ny.gov/purchase/bidresults/bidresults.asp>.

III. Contract Goals

- A. OGS hereby establishes an overall goal of 20% for MWBE participation, 10% for Minority-Owned Business Enterprises (“MBE”) participation and 10% for Women-Owned Business Enterprises (“WBE”) participation (based on the current availability of qualified MBEs and WBEs). The total contract goal can be obtained by utilizing any combination of MBE and /or WBE participation for subcontracting and supplies acquired under this Contract.
- B. For purposes of providing meaningful participation by MWBEs on the Contract and achieving the contract goals established in clause III-A hereof, Contractor should reference the directory of New York State Certified MWBEs found at the following internet address: <https://ny.newnycontracts.com/FrontEnd/VendorSearchPublic.asp?TN=ny&XID=2528>. The MWBE Regulations are located at 5 NYCRR § 140 – 145. Additionally, Contractor is encouraged to contact the Division of Minority and Women’s Business Development ((518) 292-5250; (212) 803-2414; or (716) 846-8200) to discuss additional methods of maximizing participation by MWBEs on the Contract.
- C. Contractor must document “good faith efforts” to provide meaningful participation by MWBEs as subcontractors or suppliers in the performance of the Contract (see clause VI below).

IV. MWBE Utilization Plan

- A. Contractor certifies that it has submitted, in accordance with 5 NYCRR § 142.4, a completed MWBE Utilization Plan on Form MWBE 100 and will follow such Plan for the performance of MWBEs on the Contract pursuant to the prescribed MWBE goals set forth in clause III-A of this Section.
- B. Contractor further understands that making false representations or including information evidencing a lack of good faith as part of, or in conjunction with, the submission of a Utilization Plan is prohibited by law and may result in penalties including, but not limited to, termination of a contract for cause, loss of eligibility to submit future bids, and/or withholding of payments.
- C. Contractor further agrees that a failure to submit and/or use such completed MWBE Utilization Plan shall constitute a material breach of the terms of the Contract. Upon the occurrence of such a material breach, OGS shall be entitled to any remedy provided herein, including but not limited to, a finding of Contractor non-responsiveness.

V. Request for Waiver

- A. If the Contractor, after making good faith efforts, as set forth in clause VI below, is unable to comply with MWBE goals, the Contractor may submit, in accordance with 5 NYCRR § 142.7, a Request for Waiver form (BDC 333) documenting good faith efforts by the Contractor to meet such goals. If the documentation included with the waiver request is complete, OGS shall evaluate the request and issue a written notice of acceptance or denial within twenty (20) days of receipt.
- B. If OGS, upon review of the MWBE Utilization Plan and Monthly MWBE Contractor Compliance Reports determines that Contractor is failing or refusing to comply with the contract goals and no waiver has been issued in regards to such non-compliance, OGS may issue a notice of deficiency to the Contractor. The Contractor must respond to the notice of deficiency within seven (7) business days of receipt. Such response may include a request for partial or total waiver of MWBE contract goals.
- C. Prior to submission of a request for a partial or total waiver, Contractor shall speak to the OGS Office of Minority- and Women-Owned Businesses and Community Relations for guidance.

VI. Required Good Faith Efforts

In accordance with 5 NYCRR § 142.8, Contractors must document their good faith efforts toward utilizing MWBEs on the Contract. Evidence of required good faith efforts shall include, but not be limited to, the following:

1. A list of the general circulation, trade and MWBE-oriented publications and dates of publications in which the Contractor solicited the participation of certified MWBEs as subcontractors/suppliers and copies of such solicitations and any responses thereto.
2. A list of the certified MWBEs appearing in the Empire State Development MWBE directory that were solicited for this Contract. Provide proof of dates or copies of the solicitations and copies of the responses made by the certified MWBEs. Describe specific reasons that responding certified MWBEs were not selected.
3. Descriptions of the Contract documents/plans/specifications made available to certified MWBEs by the Contractor when soliciting their participation and steps taken to structure the scope of work for the purpose of subcontracting with or obtaining supplies from certified MWBEs.
4. A description of the negotiations between the Contractor and certified MWBEs for the purposes of complying with the MWBE goals of this Contract.
5. Dates of any pre-bid, pre-award or other meetings attended by Contractor, if any, scheduled by OGS with certified MWBEs whom OGS determined were capable of fulfilling the MWBE goals set in the Contract.
6. Other information deemed relevant to the request.

VII. Monthly MWBE Contractor Compliance Report

- A. In accordance with 5 NYCRR § 142.10, Contractor is required to report Monthly MWBE Contractor Compliance to OGS during the term of the Contract for the preceding month's activity, documenting progress made towards achievement of the Contract MWBE goals. OGS requests that all Contractors use the New York State Contract System ("NYSCS") to report subcontractor and supplier payments made by Contractor to MWBEs performing work under the Contract. The NYSCS may be accessed at <https://ny.newnycontracts.com/>. This is a New York State-based system that all State agencies and authorities will be implementing to ensure uniform contract compliance reporting throughout New York State.
- B. When a Contractor receives a payment from a State agency or Authorized User following a purchase from an OGS Procurement Services contract, it is the Contractor's responsibility to pay its subcontractors and suppliers in a timely manner. On or after the first day of each month, the Contractor will receive an email or fax notification ("audit notice") indicating that a representative of its company needs to log-in to the NYSCS to report the company's MWBE subcontractor and supplier payments for the preceding month. The Contractor must also report when no payments have been made to a subcontractor or supplier in a particular month with entry of a zero dollar value in the NYSCS. Once subcontractor and supplier payments have been entered into the NYSCS, the subcontractor(s) and supplier(s) will receive an email or fax notification advising them to log into the NYSCS to confirm that they actually received the reported payments from the Contractor. It is the Contractor's responsibility to educate its MWBE subcontractors and suppliers about the NYSCS and the need to confirm payments made to them in the NYSCS.
- C. To assist in the use of the NYSCS, OGS recommends that all Contractors and MWBE subcontractors and suppliers sign up for the following two webinar trainings offered through the NYSCS: "Introduction to the System for Vendors" and "Contract Compliance Reporting - Vendor Training" to become familiar with the NYSCS. To view the training schedule and to register visit: <https://ny.newnycontracts.com/events.asp>
- D. As soon as possible after the Contract is approved, Contractor should visit <https://ny.newnycontracts.com> and click on "Account Lookup" to identify the Contractor's account by company name. Contact information should be reviewed and updated if necessary by choosing "Change Info." It is important that the staff member who is responsible for reporting payment information for the Contractor be listed as a user in the NYSCS. Users who are not already listed may be added through "Request New User." When identifying the person responsible, please add "- MWBE Contact" after his or her last name (i.e., John Doe – MWBE Contact) to ensure that the correct person receives audit notices from the NYSCS. NYSCS Technical Support should be contacted for any technical support questions by clicking on the links for "Contact Us & Support" then "Technical Support" on the NYSCS website.
- E. If Contractor is unable to report MWBE Contractor Compliance via the NYSCS, Contractor must submit a Monthly MWBE Contractor Compliance Report on Form MWBE 102 to OGS, by the 10th day of each month during the term of the Contract, for the preceding month's activity to: OGS MWBE Office, 29th floor Corning Tower, Empire State Plaza, Albany, NY 12242. Phone: 518-486-9284; Fax: 518-486-9285.

- F. It is the Contractor's responsibility to report subcontractor and supplier payments. Failure to respond to payment audits in a timely fashion through the NYSCS, or by paper to OGS, may jeopardize future payments pursuant to the MWBE liquidated damages clause in clause VIII below.

VIII. Breach of Contract and Liquidated Damages

- A. In accordance with Executive Law Section 316-a and 5 NYCRR § 142.13, the Contractor acknowledges that if it is found to have willfully and intentionally failed to comply with the MWBE participation goals set forth in the Contract, such a finding constitutes a breach of contract and the Contractor shall be liable to OGS for liquidated or other appropriate damages, as set forth herein.
- B. Such liquidated damages shall be calculated as an amount equaling the difference between:
1. All sums identified for payment to MWBEs had the Contractor achieved the contractual MWBE goals; and
 2. All sums actually paid to MWBEs for work performed or materials supplied under the Contract.
- C. If, after Contractor has been afforded due process to respond to the allegation that it willfully or intentionally failed to comply with the MWBE participation goals, OGS determines that Contractor is liable for liquidated damages and such identified sums have not been withheld by the OGS, Contractor shall pay such liquidated damages to the OGS within sixty (60) days after such determination unless prior to the expiration of such sixtieth day, the Contractor has filed a complaint with the Director of the Division of Minority and Women's Business Development pursuant to Subdivision 8 of Section 313 of the Executive Law, in which event the liquidated damages shall be payable if the Director renders a decision in favor of the OGS.

Revised pricelists shall be posted by NYS OGS Procurement Services on the contract website within five (5) business days, or as soon as possible thereafter.

Contact the Contract Administrator for the most current pricelist update procedures and forms required.

Contract prices may be subject to increase or decrease during the contract period in accordance with changes made by the manufacturer or distributor in their established, nationally distributed price list or published catalog. Catalog or price lists may indicate increases or decreases in pricing, but the percentage discount originally accepted for award should not be decreased during the contract period. Discount reduction will not be generally allowed unless specific documentation from the manufacturer is provided showing that a distributor cannot support the discount on that equipment without undue hardship. Reduction in discount from that originally accepted may result in deletion of item from award. Decision will be made on a case-by-case basis. Price decreases or discount increases are permitted and encouraged at any time. Note that once a discount is increased, that discount cannot be decreased at a later date.

A New York State agency is reminded of its obligation to comply with the NY State Finance Law §§ 167, Transfer and Disposal of Personal Property, and 168, The Management of Surplus Computer Equipment, regarding transfer and disposal of surplus personal property before utilizing take-back, recycling, or other options for disposition of equipment that is still in operable condition.

II. If Contractor offers a take-back/recycling program, then Contractor shall provide a record of disposition to each Authorized User who participates in the take-back/recycling program for units transferred for disposition. Contractor shall provide documentation that the units were disposed of in an environmentally sound manner in compliance with applicable local, state and federal laws. See Section III below for specific requirements governing electronic equipment recycling.

III. The NYS Department of Environmental Conservation (DEC) Electronic Equipment Recycling and Reuse Act ("Act") (Environmental Conservation Law, Article 27, Title 26, Electronic Equipment Recycling and Reuse), requires manufacturers to establish a convenient system for the collection, handling, and recycling or reuse of electronic waste. If Contractor is a manufacturer of electronic equipment covered by the Act, Contractor agrees to comply with the requirements of the Act. More information regarding the Act can be found on the DEC website at: <http://www.dec.ny.gov/chemical/65583.html>.

IV. If a Contractor offers a take-back/recycling program or offers an electronic equipment recycling program pursuant to the Act, and an Authorized User participates in same, then the Authorized User shall ensure the destruction of all data from any hard drives surrendered with the machines/covered electronic equipment. Contractor shall not require an Authorized User to surrender the hard drive, as an Authorized User may wish to retain the hard drive for security purposes. Contractor shall advise the Authorized User in advance if the retention of the hard drive results in additional fees or reduction in trade-in value. It is recommended that an Authorized User use a procedure for ensuring the destruction of confidential data stored on hard drives or other storage media that meets or exceeds the National Institute of Standards and Technology (NIST) Guidelines for Media Sanitation as found in NIST Special Publication 800-88.

4.36 NEW YORK STATE FOOD PRODUCTS

Contractors may be required to designate New York State Food Products in their Price Guide(s). State Agencies are expected, and New York state public authorities are strongly encouraged, to purchase New York State Food Products, unless the item does not meet their institutional or programmatic needs.

SECTION 5. STANDARDS

The following standards adopted by the US Department of Homeland Security's Science and Technology Directorate apply to Personal Protective Equipment and Radiation and Nuclear Detection Equipment. NYS DHSES grant guidance requires that any equipment purchased with Federal Homeland Security grant funds must meet any applicable standard listed on the DHS/FEMA AEL.

Items purchased by end users that have been represented as meeting Federal ODP guidelines for CBRNE, NFPA, NIOSH, or ANSI standards that do not meet those standards may be returned at Contractor's expense for replacement or refund. For radiation detection

equipment that has been tested by the manufacturer but has not completed third party testing for ANSI N 42.33, 42.34, 42.35- Evaluation and performance of Radiation Detection Portal Monitors for Use in homeland Security, and at a later date does not pass the third party tests vendors/manufacturers must refund, retrofit or replace equipment that has failed to meet requirements of the ODP standards at no additional cost to the end user.

01CL-03-ENSM Ensemble, Law Enforcement CBRN Protective, NIJ0116.00 (LERL-3)

Description: Law Enforcement CBRN Protective Ensemble (including garment elements, hand protection elements, foot protection elements, and respiratory protection) certified as compliant with NIJ 0116.00. The requirements for Law Enforcement Response Level 3 (LERL-3) apply to ensemble models and ensemble elements intended to provide protection to law enforcement personnel making tactical entry into environments involving CBRN hazards and conditions in which contaminant concentrations are known to be below IDLH levels and sufficient oxygen levels exist, permitting the use of a NIOSH-compliant CBRN air purifying respirator (APR) or CBRN powered APR (PAPR). LERL-3 ensembles are intended to withstand the rigorous use associated with tactical operations. These ensemble models are required to be tested against the same two CWAs and five TICs as LERL-2 models. NIJ 0116.00 LERL-3 ensemble certifications specify all constituent elements (garment elements, hand protection elements, foot protection elements, and CBRN APR or PAPR) by manufacturer and model number. These ensembles must be worn as complete ensembles with all elements, and using any element other than those specified within the ensemble certification invalidates the certification.

21GN-00-MAIH Maintenance, HDER

Description: Maintenance on equipment acquired through the Homeland Defense Equipment Reuse (HDER) Program.

Applicable Grant Programs: EMPG , LETPA-SHSP , LETPA-UASI , MMRS , SHSP , THSGP , UASI

Grant Notes: Maintenance contracts are allowable only for authorized equipment purchased through FEMA grants and/or acquired through the Homeland Defense Equipment Reuse (HDER) Program described below.

The mission of the Homeland Defense Equipment Reuse (HDER) Program is to provide excess radiological detection instrumentation and other equipment, as well as training and technical support, to emergency responder agencies nationwide to immediately enhance their homeland security capabilities. The used, but operable instrumentation provided through HDER constitutes a rapid, short-term solution to the immediate needs of emergency responders for this equipment. With the recent adoption of new ANSI standards, it is envisioned that the new standards-based equipment will ultimately be substituted for HDER equipment as the new equipment becomes more widely available and as state and local budgets allow. As in past years, FEMA grant funds may be used to support the maintenance, calibration and disposition of equipment obtained through the HDER Program.
