Failure to do may subject Bid Proposers to disqualification.

The following clarifications are applicable to drawings and specifications for the project referenced above.

**Item 1**

The Corridor Lighting Occupancy Sensors installation is part of the BASE BID; The Emergency Lighting System is SUPPLEMENT BID 1; the integration only of the Corridor Lighting Occupancy Sensors into DDC system is SUPPLEMENT BID 2.

**Item 2**

The Contractor is responsible for the disposal of the batteries in the existing Emergency Lighting system.

**Item 3**

Dwg. E-1 note E3 Calls for the "servicing of switchgear and the substation". This will require a complete outage of the building for several days for cleaning. Specification section 260505-5 3.03 calls for the removal of all circuit breakers in the switchboard to be cleaned, serviced and "TESTED" for proper operation Cleaning and testing procedures as per Section 260110. Due to the age of the switchgear components if these components fail testing in any way the Contractor shall notify SCSU Facilities of any deficient components prior to replacement.
