Re: Master Agreement #B-04-006

Dear Mr. Annunziato,

We have received your recent request to update the Product Schedule associated with the above noted Master Agreement. **This change adds NexWebRMS to the Product Schedule per the attached quotation.**

Given the terms and conditions of this agreement, the request to update the Product Schedule is approved. Please consider the services a part of the associated Master Agreement and retain this approval for future reference.

A copy of your Product Schedule Update request is attached to this letter.

Best regards,

Jean Del Greco

Subject: Product Schedule Update Request – Master Agreement B-04-006

Nexgen is requesting a Product Schedule update to our Master Agreement with the State of Connecticut, Department of Administrative Services.

Nexgen Public Safety Solutions will provide its Law Enforcement Administration Solutions and products to the State of Connecticut per the attached quotation. NexWebRMS is a new product separate from Nexgen Annual Maintenance. The following is a bullet list of the changes that will be taking effect with NexWeb RMS.

- Officers will have access to several modules that were previously only part of the in-house system (Arrests, Warrants, Department Review)
 - Document types previously unavailable in mobile are now in WebRMS (Court Forms, State Forms, and Warrants)
 - System is live against the database (Saving in a vehicle means picking up right where you left off inside, no more check in or check out)
 - Updates are seamlessly deployed to vehicles no longer requiring download of update package.
 - System is currently deployed through the browser (next version will be installable web app, requiring minimal deployment on computers)
 - Can be used as a replacement for LEAS installs in locations where previously not feasible to install (i.e. School Resource Officer)
 - WebRMS can access external vendor interfaces (Hunter SmartShot, Image Upload, AFIS)

Respectfully,

Sal Annunziato
Chief Executive Officer
