Re: Master Agreement #B-00-012

Dear Mr. Corson,

I have received your recent request to update the Product Schedule associated with the above noted Master Agreement. **This change updates the product schedule associated with the above noted Master Agreement per the attached quotation for the Department of Motor Vehicles.**

Given the terms and conditions of this agreement, the request to update the Product Schedule is approved. Please consider the services a part of the associated Master Agreement and retain this approval for future reference.

A copy of your Product Schedule Update request is attached to this letter. Thank you for your interest in doing business with the State of Connecticut.

Very Truly Yours,

Jean Del Greco

Dear Ms. Del Greco,

As the current provider of hardware, software and services related to the Connecticut Department of Motor Vehicles driver license program (Master Agreement Number B-00-012), the CT DMV has asked MorphoTrust USA for pricing to test the current ID SUITE Lite solution in the WINDOWS 7 environment.

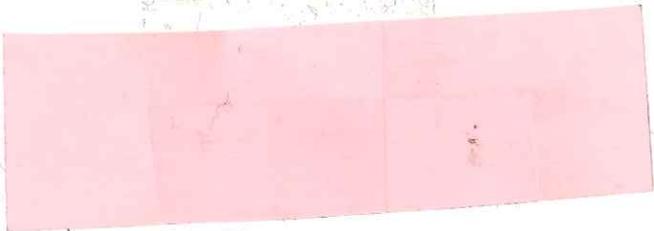

The CT DMV would like to continue to operate its current ID SUITE LITE solution, used in the offices to scan breeder documents for driver license applicants, on the Windows 7 Operating System. MorphoTrust has had success in moving the ID SUITE solution to Windows 7 Operating System for other jurisdictions, however a significant amount of testing is required for each program as they all vary somewhat in functionality and coding. This quotation includes efforts to stage the CT DMV ID SUITE LITE solution in our testing facility, run through a full Quality Assurance Cycle to qualify the solution on Windows 7, make any necessary configuration changes, and determine any additional efforts required for the solution. Once the system is qualified for implementation, a separate quote will be submitted for any additional efforts required as well as support for the rollout of the new system. The following assumptions were made when pricing this effort:

- This quote is dependent on agreement of final specifications with the customer
- This quotation is for testing of the solution only; rollout support will be an additional quote.
- CT DMV will provide MorphoTrust with 2 PCs for testing that will be used in the field
- No Changes to existing CT solution functionality, aside from ID-SUITE Lite functioning on Windows 7 Professional 32-bit Operating System
- Existing Peripherals will be used and will need to have appropriate drivers available for Windows 7 Professional 32-bit Operating System

MorphoTrust has included price quotations in the following pages to include the professional services to perform the task as described above. We respectfully request that you approve this update to the current Product Schedule.

Thank you for your consideration. Please do not hesitate to contact me with any questions you may have.

Sincerely,

John Corson
